# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

## MARCH 1961

### INTRODUCTION

This is the first published report covering Federal Government employment in the 15 census metropolitan areas in Canada. A table on Federal employment in the Ottawa-Hull metropolitan area, March 1960 was released on July 5, 1960 through the Dominion Bureau of Statistics Daily Bulletin.

#### Extent of Coverage

The present report pertains to departmental branches, services and corporations. It gives details of the staff strength at March 31, 1961 and regular earnings of employees during that month. Retroactive and overtime payments are excluded. Information on agency and proprietary corporations and other agencies is not available for inclusion in this report.

To indicate the coverage of this report, the March 31, 1961 staff strength (in Canada and abroad) of all Federal Government bodies is shown below:

Departmental branches, services and corporations .....	201,402
Agency and proprietary corporations and other agencies .....	134,609
<b>Total Federal Government Employees .....</b>	<b>336,011</b>

Of the 201,402 employees in departmental branches, services and corporations, some 130,616 or 64.8 per cent were employed in metropolitan areas on March 31, 1961.

#### Relation to the Monthly Federal Government Employment Report (Cat. No. 72-004)

This being a companion report to the monthly Federal Government Employment report, the same general comments apply. Members of the Armed Forces are excluded but the civilian personnel of National Defence are included. The civilian and uniformed personnel of the Royal Canadian Mounted Police are included. Ministers of the Crown and the Solicitor-General are excluded as are those members of Boards or Commissions who are paid on a per diem basis or who receive a nominal honorarium for their services. Terms used in the report are defined in the Glossary, Appendix B.

#### Composition of Metropolitan Areas

The fifteen metropolitan areas used herein are those developed for the 1956 decennial census of population. A list of the metropolitan areas together with the places included in each is contained in Appendix A.

#### Employees in Metropolitan Areas

Included are all Federal Government employees of departments and departmental corporations who work within the boundaries of the metropolitan areas. Persons working in the fifteen areas but residing outside are included whereas those residing in metropolitan areas but working outside are excluded. Employees normally working in a metropolitan area but who occasionally work outside are included. For example, ships' officers and crews based on ports such as Halifax and Victoria are recorded as employed in those metropolitan areas.

#### Comparability Between Number of Employees and Regular Earnings

The user of these statistics is advised to avoid making direct comparisons between the number of employees and regular earnings since the count of staff represents those employed at the end of the month whereas regular earnings relate to all persons who received pay during the month, including those not on strength at the end of the month. Considerable fluctuations in the number employed frequently occur, especially among casual staff and, consequently, a comparison between the number and earnings would, in many cases, not be valid.

The next report in this series will give statistics for the month of September, 1962.

#### Analysis of Data

Almost two-thirds of Federal employees work in metropolitan areas, i.e. 64.8 per cent compared to 35.2 per cent in non-metropolitan areas. As could be expected, Federal employees are most numerous in the Ottawa-Hull metropolitan area, where 46,095 or 22.9 per cent of the 201,402 employees in departmental branches, services and corporations are employed. The next ranking metropolitan areas are Montreal and Toronto with 17,471 and 15,129 employees respectively. Females represent a higher proportion of total staff in metropolitan areas at 30 per 100 compared with 20 per 100 in non-metropolitan areas. In the Ottawa-Hull metropolitan area the proportion is highest with 38 out of each 100 employees being women. The 4,080 employees for whom distribution by sex is not available are mostly male employees. The 2,569 employees outside Canada represent Canadians posted abroad and "locally-engaged" employees who are residents of foreign countries hired for local service by the Government of Canada.

Earnings are generally higher in metropolitan areas than in the non-metropolitan areas. Metropolitan areas with 64.8 per cent of employees register 67.0 per cent of total regular earnings. The Ottawa-Hull metropolitan area, where most of the administrative and policy-making staff are located, indicates a still higher average salary by the fact that 22.9 per cent of total staff are in receipt of 25.6 per cent of regular earnings.

A comparison between this report and the monthly Federal Government Employment report for March 1961 is shown below:

	Total employees	Employees in metropolitan areas	Percentage in metropolitan areas
Salaried .....	160,302	111,054	69.3
Prevailing Rate .....	23,852	10,701	44.9
Ships' Officers and Crews .....	2,761	2,077	75.2
Casuals and Others ....	14,487	6,784	46.8

Almost seventy per cent of salaried staff are employed in metropolitan areas. Three-quarters of the ships' officers and crews are also based in the

fifteen areas. The majority (about 55 per cent) of prevailing rate and casual employees are situated at points outside these areas.

While most departments have staff both within and outside metropolitan areas there are nine departments whose entire staff are employed in metropolitan areas, these are:

## Atomic Energy Control Board

## Auditor General's Office

## Board of Broadcast Governors

## Office of the Chief Electoral Officer

## Office of the Secretary to the Governor General

## Insurance

Legislation: The Senate  
House of Commons  
Library of Parliament

Privy Council

Secretary of State

The vast majority of these and other administrative employees are located at departmental headquarters in the Ottawa-Hull area.

<sup>1</sup> Following the proclamation of the Department of Forestry on October 1, 1960, employees are gradually being transferred from the Forestry Branch of Northern Affairs and National Resources and the Forest Biology Division of Agriculture to the new Department. Separate data on Prevailing Rate and Casual employees thus transferred are not available and they are therefore included under their former Departments.

<sup>1</sup> Following the proclamation of the Department of Forestry on October 1 1960, employees are gradually being transferred from the Forestry Branch of Northern Affairs and National Resources and the Forest Biology Division of Agriculture to the new Department. Separate data on Prevailing Rate and Casual employees thus transferred are not available and they are therefore included under their former Departments.

**APPENDIX B. Glossary of Principal Terms Used**

1. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
2. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act – Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
3. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act – Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
4. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act – Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
5. **Casual and other employees:** All employees in Departments and Departmental Corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
6. **Regular earnings:** The basic pay of employees before deductions but excluding any special payments such as overtime, living allowances, etc. All regular earnings for the month, including those persons off-strength at the end of the month are included.

# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1962

## INTRODUCTION

This is the second published report covering Federal Government employment in metropolitan areas in Canada. Seventeen metropolitan areas are covered in this report with the inclusion of Kitchener-Waterloo and Sudbury. The previous report for March 1961 covered fifteen metropolitan areas. A table on the Ottawa-Hull metropolitan area, March 1960 was released on July 5, 1960 through the Dominion Bureau of Statistics Daily Bulletin.

### Extent of Coverage

The present report is restricted to employees in departmental branches, services and corporations. It gives staff strength at September 30, 1962 and regular earnings of employees during that month. Retroactive and overtime payments are excluded. The report does not include employees of agency and proprietary corporations and other agencies

To indicate the extent of coverage of this report, the September 30, 1962 staff strength (in Canada and foreign countries) of all Federal Government organizations is shown below:

Departmental branches, services and corporations.....	201,546
Agency and proprietary corporations and other agencies.....	142,164
<b>Total Federal Government.....</b>	<b>343,710</b>

Of the 201,546 employees in departmental branches, services and corporations, some 133,682 or 66.3 per cent were employed in metropolitan areas.

### Relation to the Monthly Federal Government Employment Report (Catalogue No. 72-004)

This being a companion report to the monthly Federal Government Employment report, the same general comments apply. Members of the Armed Forces are excluded but the civilian personnel of the department of National Defence are included. Both civilian and uniformed personnel of the Royal Canadian Mounted Police are included. Ministers of the Crown and the Solicitor-General are excluded as are those members of Boards or Commissions who are paid on a per diem basis or who receive a nominal honorarium for their services. Terms used in the report are defined in the Glossary, Appendix B.

### Composition of Metropolitan Areas

The seventeen metropolitan areas covered by the report are essentially those developed for the 1961 decennial census of population. There are however, a few cases where municipalities are partly included within the boundaries metropolitan

areas, and partly excluded. Because the basic data on government employment are detailed by location a split cannot be made and the rule followed has been to incorporate the entire location into the metropolitan area concerned. Thus the metropolitan area coverage as used herein is slightly greater in the cases of Calgary and Edmonton than the areas covered by the census. A list of locations forming each metropolitan area for purposes of this report is given in Appendix A.

It should be noted that this report is based on 1961 census metropolitan areas whereas the March 1961 publication was based on 1956 areas. Changes between the two are footnoted in Appendix A.

### Comparability Between Number of Employees and Regular Earnings

The user of these statistics is advised to avoid making direct comparisons between the number of employees and regular earnings since the count of staff represents those employed at the end of the month whereas earnings relate to all persons who received pay during the month, including those not on strength at the end of the month. Considerable fluctuations in the number employed frequently occur, especially among casual staff and, consequently, a comparison between the number and earnings would, in many cases, not be valid.

### Analysis of Data

Almost two-thirds of the total staff of departmental branches, services and corporations work in the seventeen metropolitan areas. They numbered 133,682 or 66.3 per cent compared with 67,864 or 33.7 per cent in the remainder of Canada and in foreign countries. As could be expected, the Ottawa-Hull metropolitan area with 47,449 or 23.5 per cent of the departmental staff, is the location of the largest group. The Montreal metropolitan area was the location of 18,461 or 9.2 per cent and the Toronto metropolitan area 15,325 or 7.6 per cent of the total.

There were 94,459 male and 39,157 female employees in metropolitan areas, or 70.7 per cent male versus 29.3 per cent female (these figures exclude 66 employees for whom distribution by sex is not available). On the other hand, there were 53,245 male and 11,555 female employees in non-metropolitan areas, or (82.1 per cent male versus 17.9 per cent female). The proportion of male employees is probably greater since most of the 3,064 employees not distributed by sex are male employees. The highest proportion of female staff is located at Ottawa-Hull where 37 in each 100 employees are women. The 2,751 employees outside

## DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Canada represent Canadians posted abroad and "locally engaged" employees who are resident of foreign countries hired for local service by the Government of Canada.

Regular earnings are proportionally high in metropolitan areas with 66.3 per cent of all employees sharing 69.1 per cent of all regular earnings. The Ottawa-Hull metropolitan area where

most of the administrative and policy-making staff are located indicates a still higher average salary since 23.5 of the total staff received 26.8 per cent of all regular earnings.

A comparison between this report and the monthly Federal Government Employment report for September 1962 is shown below:

	Total employees	Employees in all metropolitan areas	Percentage in all metropolitan areas	Employees in Ottawa-Hull metropolitan area	Percentage in Ottawa-Hull metropolitan area
Salaried .....	163,856	115,825	70.7	43,213	26.4
Prevailing Rate .....	24,032	10,850	45.1	3,191	13.3
Ships' Officers and Crews .....	3,220	2,337	72.6	—	—
Casuals and Others .....	10,438	4,670	44.7	1,045	10.0

Over seventy per cent of salaried employees and almost three quarters of ships' officers and crews are employed or based in metropolitan areas compared with some forty-five per cent of prevailing rate and casual employees. More than one quarter of all salaried staff are employed in the Ottawa-Hull area.

The details in Tables 4 and 5 are presented by department and include those departmental branches, services and corporations having a separately administered personnel office.

The next report in this series will give statistics for the month of September 1963.

## APPENDICES

## APPENDIX A. Locations in Each Metropolitan Area

**St. John's, Nfld.:**

St. John's	— city
Mount Pearl	— town

**Halifax, N.S.:**

Halifax	— city
Dartmouth	— city
Halifax Municipality (county) as below:	
Armdale & Fairview	
Bedford & Waverley	
Cole Harbour & Eastern	
Passage	
Herring Cove & Spryfield	
North Dartmouth	
Rockingham	

**Saint John, N.B.:**

Saint John	— city
Lancaster	— city
Lancaster	— parish
Rothesay	— parish
Rothesay	— town
Simonds	— parish
Westfield	— parish

**Quebec, P.Q.:**

Quebec	— city
Beauport	— town
Beauport-O.	— munic.
Charlesbourg	— city
Charlesbourg-E.	— munic.
Charlesbourg-O.	— munic.
Charney	— village
Chateau-d'Eau	— town
Courville	— town
Giffard	— city
L'Ancienne-Lorette	— munic.
La Petite-Rivière	— town
Lauzon	— city
Les Saules	— town
Levis	— city
Loretteville	— town
Montmorency	— town
N.-D.-de-Lorette	— village
Orsainville	— town
Quebec-O.	— town
St. Ambroise	— munic.
St. David de L'Aube-Rivière	— town
St. Emile*	— village
St. Felix-du-Cap-Rouge	— munic.
Ste. Foy	— city
St. Michel-Archange	— munic.
St. Nicholas	— munic.
St. Romuald-d'Etchemin	— munic.
St. Telesphore	— munic.
Ste. Therese-de-Lisieux	— munic.
Sillery	— city
Villeneuve	— town

St. Clair Beach	— village
Sandwich E.	— twp.
Sandwich S.	— twp.
Sandwich W.	— twp.
Tecumseh	— twp.

**Winnipeg, Man.:**

Winnipeg	— city
Assiniboia	— munic.
Brooklands	— village
Charleswood	— munic.
East Kildonan	— city
Fort Garry	— munic.
Kildonan N.	— munic.
Old Kildonan	— munic.
West Kildonan	— city
St. Boniface	— city
St. James	— city
St. Paul E.*	— munic.
St. Paul W.*	— munic.
St. Vital	— munic.
Transcona	— town
Tuxedo	— town

**Calgary, Alta.:**

Calgary	— city
Bowness	— town
Montgomery	— town
Foothills*	— munic.
Rocky View	— munic.

**N.B.:** Forest Lawn annexed by Calgary 30/12/61

**Edmonton, Alta.:**

Edmonton	— city
Jasper Place	— town
St. Albert*	— town
83. Strathcona	— munic.
84. Stony Plain*	— munic.
Sturgeon River County 15	— munic.

**N.B.:** Beverly annexed by Edmonton 31/12/61

**APPENDIX A. Locations in Each Metropolitan Area — Concluded****Vancouver, B.C.:**

Vancouver	— city
Burnaby	— munic.
Coquitlam	— munic.
Delta	— munic.
Fraser Mills	— munic.
New Westminster	— city
North Vancouver	— city
North Vancouver	— munic.
Port Coquitlam	— city
Port Moody	— city
Richmond	— munic.
Surrey	— munic.

**Vancouver, B.C.—Concluded:**

University Endowment Area	— munic.
West Vancouver	— city
White Rock	

**Victoria, B.C.:** 

Victoria	— city
Central Saanich	— munic.
Esquimalt	— munic.
Oak Bay	— munic.
Saanich	— munic.
Sidney	— village

\* Locations added over the list shown in the March 1961 report which were based on the 1956 Census basis.

<sup>1</sup> The following locations in Ile Jesus were brought in the Metropolitan Area of Montreal in 1961: Auteuil, t.; Chomedey, c.; Duvernay, t.; Fabreville, t.; Iles-Laval, t.; Laval O., t.; Laval-sur-le-lac, t.; Ste. Dorothee, t.; St. Elzear, t.; St. Francois, t.; Ste. Rose, t.; St. Vincent-de-Paul, t. L'Abord-a-Plouffe was annexed to Chomedey on April 1, 1961.

<sup>2</sup> New metropolitan area.

**APPENDIX B. Glossary of Principal Terms Used**

1. **Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada. Because of the requirements of this survey, complete municipalities are included, hence the metropolitan areas of Calgary and Edmonton are somewhat larger than the Census Metropolitan Areas.
2. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
3. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act—Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
4. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer Regulations. They are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
5. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
6. **Casual and other employees:** All employees in Departments and Departmental Corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
7. **Regular earnings:** The basic pay of employees before deductions but excluding any special payments such as overtime, living allowances, etc. All regular earnings for the month, including those persons off-strength at the end of the month are included.

# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1963

## INTRODUCTION

This is the third in a series of published reports giving information on employment of the federal government in metropolitan areas. Previous reports were for the months of March 1961 and September 1962. The present report covers seventeen metropolitan areas and the only change from the publication for September 1962 is that the town of Montgomery in Alberta has been annexed by the city of Calgary. This does not make any change in the boundaries of the metropolitan area of Calgary.

### Extent of Coverage

The report is restricted to employees in departmental branches, services and corporations. It gives the staff strength of these at September 30, 1963 and includes data on regular earnings of employees on strength during that month. Retroactive and overtime payments are excluded. The report does not include employees of agency and proprietary crown corporations and other agencies.

To indicate the extent of coverage of this report the September 1963 staff strength (in Canada and abroad) of all federal government organizations is shown below:

Departmental branches, services and corporations.....	203,038
Agency and proprietary corporations and other agencies .....	139,550
<b>Total Federal Government .....</b>	<b>342,588</b>

Of the 203,038 persons employed in departmental branches, services and corporations 135,563 or 66.8 per cent were employed in metropolitan areas.

### Relation to the Monthly Federal Government Employment Report (Catalogue No. 72-004)

This is a companion report to the monthly Federal Government Employment report and the same general comments apply. A detailed statement of the methods used in preparing the monthly Federal Government Employment report is provided each year in the publication for April. Members of the Armed Forces are excluded but the civilian personnel of the Department of National Defence are included. Both civilian and uniformed personnel of the Royal Canadian Mounted Police are included. Ministers of the Crown and the Solicitor General are excluded as are those members of boards or commissions who are paid on a per diem basis or who receive a nominal honorarium for their services. Terms used in the report are defined in the Glossary which will be found in Appendix B.

### Composition of Metropolitan Areas

The seventeen metropolitan areas covered by this report are essentially those developed for use in the 1961 decennial census of population. There are, however, a few cases where municipalities are partly included within the boundaries of metropolitan areas and partly excluded for census purposes. Because the basic data on government employment are detailed by location, a split cannot be made and the rule followed has been to incorporate the entire location into the metropolitan area concerned. Thus the metropolitan area coverage, as used herein, is slightly greater in the cases of Calgary and Edmonton than the areas covered by the census. A list of locations forming each metropolitan area for purposes of this report is given in Appendix A.

It should be noted that this report, like the one for September 1962, is based on 1961 census metropolitan areas, whereas the publication for March 1961 was based on census metropolitan areas in effect in 1956. The difference between the 1956 and 1961 census metropolitan areas are indicated in the September 1962 edition of this report.

### Comparability Between Number of Employees and Regular Earnings

Persons using these statistics are warned against making direct comparisons between the number of employees and regular earnings for purposes of deriving average earnings data. This is because the count of staff represents persons employed at the end of September, whereas earnings relate to all persons who receive pay during that month, including those not on strength at the end of September. Considerable fluctuations in the number employed frequently occur, especially among casual staff and, consequently, a comparison between the number and earnings would, in many cases, not be valid.

### Analysis of Data

In September 1963 just over two-thirds of the total staff of departmental branches, services and corporations were employed in the seventeen metropolitan areas. They numbered 135,563 or 66.8 per cent compared with 67,475 or 33.2 per cent in the remainder of Canada and abroad. The distribution in September 1962 had been 133,682 employees or 66.3 per cent in metropolitan areas compared with 67,864 or 33.7 per cent in the remainder of Canada and abroad. The Ottawa-Hull metropolitan area staff at September 1963 numbered 47,500 or 23.4 per cent of the total. This was an increase of 51 employees from 1962. The Montreal metropolitan area remained

## DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

the second largest employer of federal personnel at 19,098 employees or 9.4 per cent of the total while Toronto was third largest with 15,700 or 7.7 per cent of total staff.

The sex distribution of staff shows that there were 96,850 males and 38,625 females employed in metropolitan areas. The indicated distribution therefore is 71.5 per cent males and 28.5 per cent females among staff employed in metropolitan areas. This contrasts with 52,789 males and 11,441 females in non-metropolitan areas (or 82.2 per cent males versus 17.8 per cent females). The proportion of male employees in non-metropolitan areas is probably greater since most of the 3,245 employees not distributed by sex are male staff. The highest proportion of female staff is, as previously, located at Ottawa-Hull where, as in 1952, 37 of each 100 em-

ployees are women. The 2,943 employees outside Canada represent Canadians posted abroad and "locally engaged" employees who are residents of foreign countries hired for local service by the Government of Canada.

Regular earnings are proportionally high in metropolitan areas with 66.8 per cent of all employees sharing 68.6 per cent of total earnings. The Ottawa-Hull metropolitan area where most of the administrative and policy making staff are located indicates a still higher average salary with 23.4 per cent of the total staff receiving 26.1 per cent of all regular earnings.

A comparison between this report and the monthly Federal Government Employment report for September 1963 follows:

	Total employees	Employees in all metropolitan areas	Percentage in all metropolitan areas	Employees in Ottawa-Hull metropolitan area	Percentage in Ottawa-Hull metropolitan area
Salaried .....	163,284	115,830	70.9	43,127	26.4
Prevailing rate .....	23,415	11,272	48.1	3,190	13.6
Ships' officers and crews .....	3,556	2,551	71.7	—	—
Casuals and others .....	12,783	5,910	46.2	1,183	9.3

More than 70 per cent of all salaried employees, ships' officers and crews are employed or based in metropolitan areas in contrast to between 45 and 50 per cent of prevailing rate and casual employees. More than one quarter of all the salaried staff are employed in the Ottawa-Hull area.

While most departments have staff both within and outside metropolitan areas there are seven whose entire staff are employed in the metropolitan areas. These are:

Auditor General's Office

Board of Broadcast Governors

Office of the Chief Electoral Officer

Office of the Secretary to the Governor General

Insurance

Legislation: The Senate  
House of Commons  
Library of Parliament

Secretary of State

The vast majority of these and other administrative employees are located at the departmental headquarters which are usually situated in the Ottawa-Hull area.

<sup>1</sup> Effective August 21, 1963 the Department of Defence Production absorbed a substantial portion of the activities of the Department of Public Printing and Stationery. Public Printing and Stationery, in turn, assumed part of the responsibilities of Defence Production on October 3, 1963 and was renamed The Queen's Printer. Details of the staff affected are not available and the data has accordingly been shown under the respective former Departments.

<sup>2</sup> Includes "North Atlantic Treaty Organization" and "Canada's Civilian Participation as a member of the International Commissions for Supervision and Control in Indo-China".

<sup>3</sup> Excludes field parties.

<sup>4</sup> Excludes members of the Armed Forces.

<sup>5</sup> Excludes employees paid from Postal Revenues.

<sup>1</sup> Effective August 21, 1963, the Department of Defence Production absorbed a substantial portion of the activities of the Department of Public Printing and Stationery. Public Printing and Stationery, in turn, assumed part of the responsibilities of Defence Production on October 3, 1963, and was renamed the Queen's Publisher. Details of the staff affected are not available and the data has accordingly been shown under the respective former Departments.

<sup>2</sup> Includes "North Atlantic Treaty Organization" and "Canada's Civilian Participation as a member of the International Commissions for Supervision and Control in Indo-China".

<sup>3</sup> Excludes earnings of field parties.

<sup>4</sup> Excludes pay of members of the Armed Forces.

<sup>5</sup> Excludes earnings of employees paid from Postal Revenues.

**APPENDIX B. Glossary of Principal Terms Used**

1. **Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada. Because of the requirements of this survey, complete municipalities are included, hence the metropolitan areas of Calgary and Edmonton are somewhat larger than the Census Metropolitan Areas.
2. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part-time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
3. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act—Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
4. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
5. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
6. **Casual and other employees:** All employees in Departments and Departmental Corporations of the Government of Canada who are not defined as salaried, prevailing rate, ships' officer or ships' crew employees.
7. **Regular earnings:** The basic pay of employees before deductions but excluding any special payments such as overtime, living allowances, etc. All regular earnings for the month, including those persons off-strength at the end of the month are included.

- r revised figures.

# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1964

## INTRODUCTION

This is the fourth in a series of published reports giving information on employment of the federal government in metropolitan areas. Previous reports were for the months of March 1961, September 1962 and September 1963. The present report covers seventeen metropolitan areas. Changes from the publication of September 1963 are listed below:

1. Metropolitan Quebec, P.Q.
  - (a) Town of La Petite-Rivi re, name changed to Duberger
  - (b) Parish of St. Ambroise, name changed to Neufch tel
2. Metropolitan Montreal, P.Q.
  - (a) Parish of Notre Dame-de-Liesse, annexed by City of St. Laurent
  - (b) Parish of Ste. Anne-du-Bout-de-l'Ile, annexed by town of Ste-Anne de Bellevue.
  - (c) Village of Saraguay, annexed by City of Montreal
  - (d) Town of St-Eustache-sur-le-Lac, became City of Deux-Montagnes.
3. Metropolitan Calgary, Alta.
  - (a) Town of Bowness, annexed by City of Calgary
4. Metropolitan Edmonton, Alta.
  - (a) Town of Jasper Place, annexed by City of Edmonton

These changes did not alter the boundaries of any metropolitan areas.

## Extent of Coverage

The report is restricted to employees in departmental branches, services and corporations. It gives the staff strength of these at September 30, 1964 and includes data on regular payroll of employees on strength during that month. Retroactive and overtime payments are excluded. The report does not include employees of agency and proprietary crown corporations and other agencies.

To indicate the extent of coverage of this report the September 1964 staff strength (in Canada and abroad) of all federal government organizations is shown below:

Departmental branches, services and corporations .....	203,059
Agency and proprietary corporations and other agencies .....	143,455
<b>Total Federal Government .....</b>	<b>346,514</b>

Of the 203,059 persons employed in departmental branches, services and corporations 135,612 or 66.8 per cent were employed in metropolitan areas.

## Relation to the Monthly Federal Government Employment Report (Catalogue No. 72-004)

This is a companion report to the monthly Federal Government Employment report and the same general comments apply. A detailed statement of the methods used in preparing the monthly Federal

Government Employment report is provided each year in the publication for April. Members of the Armed Forces are excluded but the civilian personnel of the Department of National Defence are included. Both civilian and uniformed personnel of the Royal Canadian Mounted Police are included. Ministers of the Crown and the Solicitor General are excluded as are those members of boards or commissions who are paid on a per diem basis or who receive a nominal honorarium for their services. Terms used in the report are defined in the Glossary which will be found in Appendix B.

## Composition of Metropolitan Areas

The seventeen metropolitan areas covered by this report are essentially those developed for use in the 1961 decennial census of population. There are, however, a few cases where municipalities are partly included within the boundaries of metropolitan areas and partly excluded for census purposes. Because the basic data on government employment are detailed by location, a split cannot be made and the rule followed has been to incorporate the entire location into the metropolitan area concerned. Thus the metropolitan area coverage, as used herein, is slightly greater in the cases of Calgary and Edmonton than the areas covered by the census. A list of locations forming each metropolitan area for purposes of this report is given in Appendix A.

It should be noted that this report, like those for September 1962 and 1963 is based on 1961 census metropolitan areas, whereas that for March 1961 was based on census metropolitan areas in effect in 1956. The differences between 1956 and 1961 census metropolitan areas were indicated in the September 1962 edition of this report.

## Comparability Between Number of Employees and Regular Earnings

Persons using these statistics are warned against making direct comparisons between the number of employees and regular payrolls for purposes of deriving average pay per employee. This is because the count of staff represents persons employed at the end of September, whereas payrolls relate to all persons who receive pay during that month, including those not on strength at the end of September. There are considerable fluctuations in the number employed, especially among casual staff and, consequently, a comparison between the number and payrolls would, in many cases, not be valid.

## Analysis of Data

In September 1964 just over two thirds of the total staff of departmental branches, services and corporations were employed in the seventeen metropolitan areas. They numbered 135,612 or 66.8 per cent compared with 67,447 or 33.2 per cent in the remainder of Canada and abroad. The distribution in September 1963 had been 135,563 employees or 66.8

## FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

per cent in metropolitan areas compared with 67,475 or 33.2 per cent in the remainder of Canada and abroad. The Ottawa-Hull metropolitan area staff at September 1963 numbered 48,190 or 23.7 per cent of the total. This was an increase of 690 employees or 1.5 per cent from 1963. The Montreal metropolitan area remained the second largest employer of federal personnel at 19,212 employees or 9.5 per cent of the total while Toronto was third largest with 16,179 or 8.0 per cent of total staff.

The number of ships' employees assigned to the Canadian Coast Guard in Quebec City declined from 447 in September 1963 to 26 in September 1964.

For the Ottawa-Hull metropolitan area, comparing the figures of September 1964 to September 1963:

1. The transfer of employees from the Department of Public Printing and Stationery to the Directorate of Printing (Department of Defence Production) accounts for staff variations in these departments.
2. The establishment of the Department of Industry caused an increase in Federal Government staff.
3. The Secretary of State gained 110 employees because the National Museum was brought under its administration from the Department of Northern Affairs and National Resources.

The sex distribution of staff shows that there were 96,627 males and 38,912 females employed in metropolitan areas. The indicated distribution therefore is 71.3 per cent males and 28.7 per cent females among staff employed in metropolitan areas. This contrasts with 53,493 males and 11,332 females in non-metropolitan areas (or 82.5 per cent males versus 17.5 per cent females). The proportion of male employees in non-metropolitan areas is probably greater since most of the 2,622 employees not distributed by sex are male staff. The highest proportion of female staff is, as previously, located at Ottawa-Hull where, 36 of each 100 employees are women. The 3,088 employees outside Canada represent Canadians posted abroad and "locally engaged" employees who are residents of foreign countries hired for local service by the Government of Canada.

Regular payrolls are proportionally high in metropolitan areas with 66.8 per cent of total payrolls. The Ottawa-Hull metropolitan area where most of the administrative and policy making staff are located indicates a still higher average salary with 23.7 per cent of the total staff receiving 27.3 per cent of all regular earnings.

A comparison between this report and the monthly Federal Government Employment report for September 1964 follows:

	Total employees	Employees in all metropolitan areas	Percentage in all metropolitan areas	Employees in Ottawa-Hull metropolitan area	Percentage in Ottawa-Hull metropolitan area
Salaried .....	163,490	116,355	71.1	43,408	25.9
Prevailing rate .....	21,856	10,936	50.0	2,994	13.7
Ships' officers and crews .....	3,520	1,958	55.6	—	—
Casuals and others .....	14,193	6,363	44.8	1,788	12.6

Some 71 per cent of all salaried employees are employed or based in metropolitan areas in contrast to 56 per cent of ships' officers and crews, 50 per cent of prevailing rate employees and 45 per cent of the casuals. More than one quarter of all the salaried staff are employed in the Ottawa-Hull area.

While most departments have staff both within and outside metropolitan areas there are eleven whose entire staff are employed in the metropolitan areas. These are:

Auditor General's Office

Board of Broadcast Governors

Office of the Chief Electoral Officer

Office of the Secretary to the Governor General  
Industry  
Insurance  
National Gallery of Canada  
Legislation: The Senate  
House of Commons  
Library of Parliament  
Privy Council

The vast majority of these and other administrative employees are located at the departmental headquarters which are usually situated in the Ottawa-Hull area.

**APPENDIX B. Glossary of Principal Terms Used**

1. **Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada. Because of the requirements of this survey, complete municipalities are included, hence the metropolitan areas of Calgary and Edmonton are somewhat larger than the Census Metropolitan Areas.
2. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part-time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
3. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act—Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
4. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
5. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
6. **Casual and other employees:** All employees in Departments and Departmental Corporations of the Government of Canada who are not defined as salaried, prevailing rate, ships' officer or ships' crew employees.
7. **Regular payroll:** The basic wage and salary payments to employees during a specified period of time, excluding overtime, retroactive and other payments, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".

# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1965

## INTRODUCTION

This is the fifth published report giving information on employment of the federal government in metropolitan areas. Previous surveys were for the months of March 1961, September 1962, September 1963 and September 1964. The present report covers the same seventeen metropolitan areas as the 1964 survey.

### Extent of Coverage

The report is restricted to employees in departmental branches, services and corporations. It gives the staff strength at September 30, 1965 and includes data on regular payroll of employees on strength during that month. Retroactive and overtime payments are excluded. The report does not include employees of agency and proprietary crown corporations and other agencies.

The September 1965 staff strength (in Canada and abroad) of all federal government organizations is shown below:

Departmental branches, services and corporations .....	211,077
Agency and proprietary corporations and other agencies .....	143,073
<b>Total Federal Government .....</b>	<b>354,150</b>

Of the 211,077 persons employed in departmental branches, services and corporations 140,300 or 66.5 per cent were employed in metropolitan areas and are analyzed in this publication.

### Relation to the Monthly Federal Government Employment Report (Catalogue No. 72-004)

This is a companion report to the monthly Federal Government Employment report and the same general comments apply. A detailed statement of the methods used in preparing the monthly Federal Government Employment report is provided each year in the publication for April. Members of the Armed Forces are excluded but the civilian personnel of the Department of National Defence are included. Both civilian and uniformed personnel of the Royal Canadian Mounted Police are included. Ministers of the Crown and the Solicitor General are excluded as are those members of boards or commissions who are paid on a per diem basis or who receive a nominal honorarium for their services. Terms used in this report are defined in the Glossary which will be found in Appendix B.

### Composition of Metropolitan Areas

The seventeen areas covered by this report are essentially those developed for use in the 1961 Census of Population. For Census purposes certain

municipalities were only partly included within the boundaries of metropolitan areas. Data on employment cannot be split within a municipality and the rule followed has been to include the entire municipality in the metropolitan area concerned. A list of locations forming each area for purposes of this report is given in Appendix A.

### Comparability Between Number of Employees and Regular Earnings

Persons using these statistics are warned against making direct comparisons between the number of employees and regular payrolls for purposes of deriving average pay per employee. This is because the count of staff represents persons employed at the end of September, whereas payrolls relate to all persons who receive pay during that month, including those not on strength at the end of September. There are considerable fluctuations in the number employed, especially among casual staff and, consequently, a comparison between the number and payrolls would, in many cases, not be valid.

### Analysis of Data

Departmental staff strength, including those employees posted abroad, totalled 211,1 thousand in September 1965 and 203,1 thousand in September 1964. Within metropolitan areas there were 140,3 thousand employees (66.5 p.c. of total) in 1965 and 135,6 thousand (66.8 p.c. of total) in 1964. Ottawa-Hull encompassed 50,3 thousand employees, 23.8 p.c. of the Canada total, an increase of 2.1 thousand from September 1964. Montreal had the second highest concentration of employees at 20,0 thousand, 9.6 p.c. of the total. Toronto was the third most significant area with 16,7 thousand employees or 7.9 p.c. of the total.

Within metropolitan areas there were 98.9 thousand males and 41.3 thousand females. In September 1964 there were 96,6 thousand males and 38,9 thousand females. These figures indicate a 2.3 p.c. increase in male staff and 6.2 p.c. in female. The greatest ratio of female to total staff occurred in the Ottawa-Hull area where, as in the 1964 survey, 36 out of every 100 employees were women.

Regular payroll was proportionately high in metropolitan areas, they accounted for 68.4 p.c. of the total payroll. The Ottawa-Hull area, where most of the administrative and planning officers are located, indicated a higher than average payroll with 23.8 p.c. of the employees receiving 27.1 p.c. of the pay.

Factors which influenced employment and payroll changes between September 1964 and 1965 were:

1. Early in this fiscal year the Economic Council of Canada, formerly a Crown Corporation and therefore excluded from this report, was designated a departmental corporation under the Secretary of State.
2. National Revenue "seasonal" employees, previously classified as "salaried" are now classified as "casuals". This change affects Table 2.
3. The Department of Defence Production assumed responsibility for the purchasing of stores and supplies for several departments.
4. The number of prevailing rate employees decreased as Public Works increased the amount of work it contracted to outside firms.

5. Privy Council had a staff increase occurring mainly in the Royal Commission on Bilingualism and Biculturalism.
6. Although the "Canada Pension Plan" did not come into effect until January 1966, projects preparatory to its institution affected the Departments of Finance and National Revenue.
7. With the integration of the Armed Forces, there has been a decrease in the number of civilian personnel required by National Defence.
8. The Department of Labour was reorganized with Unemployment Insurance Commission, formerly a branch of that Department, becoming a department.
9. The Civil Service Commission created two new divisions: (a) Personnel Administration Directorate and (b) Language Training Centre.

A comparison between this report and the monthly Federal Government Employment Report for September 1965 follows:

	Total employees	Employees in all Metropolitan areas	Percentage in all Metropolitan areas	Employees in Ottawa-Hull Metropolitan area	Percentage in Ottawa-Hull Metropolitan area
Salaried .....	166,916	119,180	71.4	45,105	27.0
Prevailing rate .....	21,621	10,928	50.5	2,752	12.7
Ships' officers and crews .....	3,818	2,040	53.4	—	—
Casuals and others.....	18,722	8,152	43.5	2,416	12.9

Slightly more than 71 per cent of all salaried employees were based in metropolitan areas, compared to 53 per cent of ships' officers and crews, 51 per cent of prevailing rate employees and 44 per cent of casuals. More than one-quarter of all salaried staff were employed in the Ottawa-Hull area.

There are 14 departments and 3 departmental corporations whose staff are entirely or mainly employed in the metropolitan area of Ottawa-Hull. Those are:

Atomic Energy Control Board<sup>1</sup>  
Auditor General's Office  
Board of Broadcast Governors  
Office of the Chief Electoral Officer

Dominion Bureau of Statistics  
External Affairs  
Office of the Secretary to the Governor General

**APPENDIX B. Glossary of Principal Terms Used**

1. **Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part-time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
3. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act—Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
4. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
5. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
6. **Casual and other employees:** All employees in Departments and Departmental Corporations of the Government of Canada who are not defined as salaried, prevailing rate, ships' officer or ships' crew employees.
7. **Regular payroll:** The basic wage and salary payments to employees during a specified period of time, excluding overtime, retroactive and other payments, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.

## INTRODUCTION

In this report information is given on employment and payroll data related to federal employees in metropolitan areas. The nineteen areas listed in the following tables, include the seventeen metropolitan areas as defined for purposes of the 1966 Census of Population, plus the cities of Regina and Saskatoon.

### Extent of Coverage

The report is restricted to employees in departments and departmental corporations. That is, "departments" as named divisions of the Government of Canada and defined in the Financial Administration Act, Schedule A, and "Departmental Corporations" which are corporations that act as a servant, or agent, of Her Majesty in right of Canada and are responsible for administrative, supervisory, or regulatory services of a governmental nature. Departmental Corporations are designated in the Financial Administration Act, Schedule B.

Staff strength is given as of September 30, 1966, and regular payroll of employees on strength during the month is also shown. Retroactive and overtime payments are excluded. Employment data of agency and proprietary corporations and other agencies, as defined in Schedules C and D of the Financial Administration Act, are also excluded.

The September 1966 staff strength, in Canada and abroad, of all federal government organizations is shown below:

Departments and departmental corporations...	225,892
Agency and proprietary corporations and other agencies .....	146,084
<b>Total Federal Government .....</b>	<b>371,976</b>

Of the 225,892 persons employed by the departments and departmental corporations, 146,869 or 65.0 per cent were employed in metropolitan areas and their distribution is analyzed in this publication.

### Relation to the Monthly Report, Federal Government Employment (Catalogue No. 72-004)

This is a companion report to the monthly Federal Government Employment report and the same general comments apply. A detailed statement of the methods used in preparing the monthly report is provided each year in the publication for April. Members of the Armed Forces are excluded, as are Ministers of the Crown, Judges and the Governor General and Lieutenant-Governors. Also excluded are those members of boards or commissions who are paid on a per diem basis or who receive a nominal honorarium for their services. Included are both civilian and uniformed personnel of the Royal Canadian Mounted Police. Terms used in this report are defined in the Glossary which will be found in Appendix B, page 38.

### Composition of the Metropolitan Areas

The nineteen areas covered by this report are essentially those used in the 1966 Census of Population. For census purposes, only part of certain municipalities were included within the boundaries of metropolitan areas. Data on employment cannot be separated within a municipality and the rule followed has been to include the entire municipality in the metropolitan area concerned. A list of locations forming each area for purposes of this report is given in Appendix A, page 36.

### Comparability Between Number of Employees and Regular Payrolls

Persons using these statistics are warned against making direct comparisons between the number of employees and regular payrolls for purposes of deriving average pay per employee. This is because the staff strength represents only those persons employed at the end of September whereas the payroll includes monies paid during the month, including payments to those not on strength at the end of September. There is considerable variation between the number employed, particularly among the casual employees, and, as a result most comparisons between the number employed and the payroll would not be meaningful.

### Analysis of Data

As noted in the first paragraph, this report includes the cities of Regina and Saskatoon for the first time, so that comparisons between 1965 and this one are misleading to that extent.

A new Table 1, giving a 1965-66 comparative summary of employment by Department is included in this issue. The Government Organization Act did not become effective, officially, until October 1, 1966. However, the necessary re-organization began in December 1965 and continued to October 1966. The effect of these changes are apparent in this table.

Early in 1966 the first changes came into effect with the (1) transfer of the Indian Affairs Branch from Citizenship and Immigration to Northern Affairs and National Resources; (2) The Dominion Bureau of Statistics, formerly under Trade and Commerce, became a department in its own right, directly answerable to the Minister of Trade and Commerce.

The Purchasing and Stores (or Purchasing and Provisions) Branch of several departments were transferred to Defence Production. The individual branches transferred were small showing little effect on the "transferring" department, however, the combined numbers are apparent in Defence Production staff, particularly in the Ottawa-Hull area. Labour Department transferred two Branches; Technical and

Vocational Training Assistance and National Employment Service to Citizenship and Immigration. A new department, that of Solicitor General, was created and appears in this publication for the first time. The Royal Canadian Mounted Police, previously an independent organization, is now included under the Solicitor General.

In addition to the above mentioned transfer of branches, or divisions from one department to another, variations in the number of employees are apparent in departments where a re-organization (or further re-organization) was pending. For example, both Privy Council and Secretary of State were affected by the creation of the Solicitor General's department and that of the Registrar General, although they did not become "official" until Oct. 1 (the day following this survey) the change-over was in progress prior to September 30.

Other staff increases will be noted which are the result of natural growth, that is, added responsibility for a department made additional staff necessary. Public Works show a decrease in staff from 1965 due to their policy of giving out projects to private contractors, thereby lessening the staff requirements of that department.

Total departmental staff strength as of September 30, 1966 (including those posted abroad) was 225.9 thousand. Within the nineteen metropolitan areas there were 146.9 thousand employees, or 65.0 per cent of the total, compared to 140.3 thousand in 1965, representing 66.5 per cent of the total. In 1966, staff strength of 53.0 thousand (23.5 per cent) were in the Ottawa-Hull area, compared to 50.3 thousand (23.8 per cent) in 1965. Montreal and Toronto have the second and third highest concentration of employees, with Vancouver in fourth place, previously held by Halifax which is now fifth in order of significance.

Within metropolitan areas there were 102.7 thousand males and 44.1 thousand females employed by the Federal Government as of September 30, 1966. In September 1965 there were 98.9 thousand males and 41.3 thousand females which indicates a 3.9 per cent increase in male staff and 6.7 per cent in female. The greatest ratio of female to total staff occurred in the Ottawa-Hull area where 37 out of every 100 employees were women. Sudbury and London areas were next with 35 and 34 females per 100, respectively. Regular payroll was proportionately higher in metropolitan areas where they accounted for 67.7 per cent of the total payroll. The Ottawa-Hull area, where the most of the administrative and planning offices are located, accounted for 27.2 per cent of the payroll.

Seventy per cent of all salaried employees work within metropolitan areas, compared to 69 per cent of ships' officers and crews, 49 per cent of prevailing rate employees and 32 per cent of casuals. More than one quarter of all salaried employees were in the Ottawa-Hull area.

Of the thirty-eight Federal Government departments and departmental corporations providing this survey material, there are eight departments and two departmental corporations whose staff are entirely employed in the Ottawa-Hull Metropolitan area. These are:

Atomic Energy Control Board <sup>1</sup>	
Board of Broadcast Governors	
Office of the Chief Electoral Officer	
External Affairs	
Office of the Secretary to the Governor General	
Industry	
Legislation: The Senate	
	House of Commons

**APPENDIX B. Glossary of Principal Terms Used**

1. **Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part-time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
3. **Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act—Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
4. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
5. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
6. **Casual employees:** An employee engaged on a casual basis, or for a period not exceeding 12 months. These personnel may perform the duties which would normally be carried out by salaried, prevailing rate or ships' crew employees. They may be paid out of either the Salaries and Wages Object or other financial objects of expenditure. For example, persons employed and paid out of monies provided for the repair and upkeep of furniture would be considered casual employees, unless engaged on a contractual basis.
7. **Regular payroll:** The basic wage and salary payments to employees during a specified period of time, excluding overtime, retroactive and other payments, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".

# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

Government  
Publications

SEPTEMBER 1967

## INTRODUCTION

This publication presents statistics on employment and payrolls, respecting Government of Canada employees in metropolitan areas, as of September 1967. Terms used in this publication are defined in the Glossary found in Appendix B, page 28.

### Composition of the Metropolitan Areas

The nineteen metropolitan areas are those so defined for the purposes of the 1966 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 26. The metropolitan areas of Regina, Saskatoon and Calgary have no components, other than the cities themselves. Their boundaries are coincident with those of the metropolitan areas.

### Extent of Coverage

The publication contains statistics relating only to employees of departments (as designated in Schedule A, the Financial Administration Act) and departmental corporations (as designated in Schedule B, the Financial Administration Act), and as such excludes those of agency and proprietary corporations and other agencies. The organizations included as departmental corporations are:

Agricultural Stabilization Board,  
Atomic Energy Control Board  
Dominion Coal Board  
Economic Council of Canada  
Fisheries Prices Support Board  
Municipal Development and Loan Board  
National Gallery of Canada  
National Museum of Canada  
National Research Council  
Director of Soldier Settlement  
The Director, The Veterans' Land Act  
Unemployment Insurance Commission.

The September 1967 staff strength, in Canada and abroad, is shown as follows:

Departments and departmental corporations	236,085
Agency and proprietary corporations and other agencies .....	159,147
<b>Total .....</b>	<b>395,232</b>

Excluded in addition to employees noted above are:

Members of the Canadian Forces  
Employees in Revenue Post Offices  
Ministers of the Crown  
Judges

The Governor General and Lieutenant-Governors, as well as those members of boards or commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

Included are both civilian and uniformed personnel of the Royal Canadian Mounted Police.

The data in this publication reflect regular payrolls only, not including overtime or retro-active salary increase payments.

### Comparability Between Number of Employees and Regular Payrolls

Users are cautioned against attempting to derive average salary rates by making direct comparisons between the number of employees and regular payrolls, as data relating to each are reported on different and therefore non comparable bases.

### Analysis of Data

The September 1967 staff strength of all departments and departmental corporations was 236,085. This publication analyzes the 156,887 or 66.5 per cent of these employees who were employed in metropolitan areas.

The number employed in metropolitan areas represented an increase of 10,018 or 6.7 per cent over the number employed in these areas as of September 1966. The monthly payroll of \$75,803,723, represented an increase of \$9,502,452 or 14.3 per cent over the September 1966 payroll.

Note was made, in the 1966 issue, of the Government Reorganization Act which came into force October 1, 1966. The significant variations reflected in this publication result primarily from the implementation of the provisions of that Act. The more significant variations resulting therefrom are highlighted as follows:

**Manpower and Immigration (previously Citizenship and Immigration).**—A continued expansion in this department is indicated. This has occurred primarily in the Development and Utilization of Manpower Division.

**Public Service Commission (previously Civil Service Commission).**—The Public Service Employment Act (February 1967) established this commission to replace the Civil Service Commission.

**Public Service Staff Relations Board.**—This Board was established in February 1967 to administer the new Public Service Staff Relations Act and to administer the operations of the Pay Research Bureau which had previously operated within the Civil Service Commission.

**Forestry and Rural Development (previously Forestry).**—A 22.2 per cent increase in staff is indicated with respect to this department.

**Energy, Mines and Resources (previously Mines and Technical Surveys).**—There has been a noticeable staff increase across the department particularly in Research and Investigation with the transfer of the functions and staff of the Resource Development Branch from the Department of Indian Affairs and Northern Development.

**The Privy Council.** — The 25.3 per cent decrease in staff strength since 1966 resulted essentially from the transfer of the functions and staff of the Combines Investigation Act Administration and the Patents, Copyrights and Trade Marks Branches to the Registrar General. There were also decreases in the staffs of the Royal Commissions on Pilotage and Bilingualism and Biculturalism.

**The Secretary of State.** — This organization was affected significantly by the Government Reorganization. The functions and staff of the former Citizenship Branch of Citizenship and Immigration were assumed by it, while the Corporations Branch was transferred to the Registrar General and the National Arts Centre was established by act of parliament as a crown corporation.

Other staff variations were predicated on service and/or workload changes. Some of the more notable are:

**Defence Production.** — Staff increases reflect the assumption of the service and supply function on behalf of certain other departments and absorbed the staff which previously had been located within those departments to perform the function.

**External Affairs.** — The increased number of employees in this department is related to the expansion of the External Aid function.

**Finance.** — The staff increase in this department, while on the surface only 5 per cent, is actually more significant. During the year ending September 1967 The Treasury Board, which had been a part of the Department of Finance, was established as a separate department and its staff, included in Finance in 1966, is shown separately in this publication. The actual increase in Finance is, therefore, more of the order of 12 per cent. The increase in the main resulted from the expansion of Treasury service at the regional level.

**Industry.** — This department since its inception in July 1963 has shown a continued, though gradual, increase in staff. The trend continued during the year to September 1967.

**National Defence.** — The civilian staff increased by some 10 per cent during the year in large measure due to the taking over, by civilian staff, of certain functions which had previously been performed by forces personnel.

**National Film Board.** — The increase of approximately 23 per cent was due in great part to the increased activities of the Board in connection with Centennial Year.

**Indian Affairs and Northern Development.** — The staff increases to establishments of this department in metropolitan areas, totalling about 300, were evident in all branches.

**Solicitor General.** — The marked increase in numbers reflects a change in the reporting policy with respect to casual employees of the Royal Canadian Mounted Police rather than an actual increase in staff.

**Trade and Commerce.** — The personnel of this department in metropolitan areas increased 14 per cent. This resulted primarily from increased activity of the Exhibition Branch and the Canadian Government Travel Bureau.

**Veterans' Affairs.** — The transfer of Sunnybrook Hospital from federal government jurisdiction to the University of Toronto resulted in the large decrease in the number of employees of Veterans' Affairs in the Toronto Metropolitan Area.

As mentioned earlier, in the text, of the 236,085 employed by federal departments who were on staff strength at the end of September, 156,887 or 66.5 per cent were employed within metropolitan areas as compared to September 1966 when there were 146,869 or 65.0 per cent of the total staff strength.

In 1967, 56.3 thousand (23.8 per cent) were in the Ottawa-Hull area, compared to 52.9 thousand (23.5 per cent) in 1966. Montreal with 21.7 thousand (9.2 per cent); Toronto with 17.1 thousand (7.2 per cent); Halifax with 10.0 thousand (4.2 per cent) and Vancouver 9.99 thousand (4.2 per cent) follow in that order. Comparable figures for 1966 are: Montreal 20.1 thousand (8.9 per cent); Toronto 17.4 thousand (7.7 per cent); Vancouver 9.4 thousand (4.1 per cent) and Halifax 8.4 thousand (3.7 per cent). Within the metropolitan areas there were 110.8 thousand male employees and 46.1 thousand female. There was a slight decrease of female employees since 1966. In the Ottawa-Hull area, where there is the highest female ratio, 36 out of every 100 employees were women, this compares with 37 out of 100 in 1966. Halifax had the lowest ratio with slightly less than two per hundred.

Of the total federal government employees, 71 per cent of salaried; 70 per cent of ships' officers and crews; 52 per cent of prevailing rate and 46 per cent of casuals are employed in the metropolitan areas. Thirty per cent of all salaried employees are in the Ottawa-Hull area.

Of the forty-one federal government departments and departmental corporations providing this survey material, there are ten departments and two departmental corporations whose staff are entirely employed in the Ottawa-Hull area. These are:

- Atomic Energy Control Board<sup>1</sup>
- Board of Broadcast Governors
- Office of the Chief Electoral Officer
- External Affairs
- Office of the Secretary to the Governor General
- Legislation: The Senate
- House of Commons
- Library of Parliament
- National Gallery<sup>1</sup>
- Privy Council
- Public Archives and National Library
- Public Service Staff Relations Board
- Treasury Board.

<sup>1</sup> Departmental Corporations.

\* Excludes payments to the Governor General, Lieutenant-Governors, judges and all ministers of the Crown.

## APPENDICES

### APPENDIX A. Locations in Each Metropolitan Area

#### St. John's, Nfld:

St. John's  
Mount Pearl  
Unorganized

#### Halifax, N.S.:

Halifax  
Dartmouth  
Halifax Municipality (county) as below:  
Armdale  
Bedford & Waverly  
Cole Harbour & Eastern Passage<sup>1</sup>  
Herring Cove & Spryfield  
North Dartmouth  
Rockingham

#### Saint John, N.B.:

Saint John  
East Riverside - Kingshurst  
Fair Vale  
Gondola Point  
Pamdenac  
Rothesay  
Quinpanis  
Renforth  
Westfield

#### Quebec, P.Q.:

Quebec  
Beauport  
Charlesbourg  
Charlesbourg-E.  
Charlesbourg-O.  
Charney  
Courville  
Duberger  
Giffard  
L'Ancienne-Lorette  
Lauzon  
Les-Saules  
Levis  
Loretteville  
Montmorency  
Orsainville  
Neufchâtel  
St. David de l'Aube-Rivière  
St. Emile  
St. Félix-du-Cap-Rouge  
Ste. Foy  
St. Nicholas  
St. Romuald-d'Etchemin  
Ste. Therese-de-Lisieux  
Sillery  
Villeneuve  
Vanier  
Indian Reserves

#### Montreal, P.Q.:

All of Montreal and Jesus Islands plus:  
Boucherville  
Bossard

#### Montreal, P.Q. — Concluded:

Candiac	— town
Charlemagne	— village
Chateauguay	— town
Chateauguay-Centre	— town
Chateauguay-Heights	— town
Delson	— town
Dorion	— town
Greenfield Park	— town
Île-Perrot	— town
Jacques-Cartier	— city
Lafleche	— city
La-Prairie	— town
Le-Moyne	— town
Lery	— town
Longueuil	— city
Notre-Dame	— mun.
N.-D.-de-l'Ile-Perrot	— mun.
Pincourt	— town
Pointe-du-Moulin	— town
Preville	— town
Repentigny	— town
Rosemere	— town
St. Bruno-de-Montarville	— town
Ste-Catherine-D'Alexandrie-de-	
Laprairie	— mun.
St-Constant	— mun.
St-Eustache	— town
Deux-Montagnes	— city
St. Hubert	— town
St. Lambert	— city
Ste. Therese	— city
Terrasse-Vaudreuil	— mun.
Indian Reserves	

#### Ottawa - Hull, Ont. and P.Q.:

Ottawa, Ont.	— city
Hull, P.Q.	— city
Aylmer, P.Q.	— town
Deschenes, P.Q.	— village
Eastview, Ont.	— city
Gatineau, P.Q.	— town
Gloucester, Ont.	— twp.
Lucerne, P.Q.	— mun.
Nepean, Ont.	— twp.
Pointe-Gatineau, P.Q.	— town
Rockliffe Park, Ont.	— village
Templeton, P.Q.	— village
Templeton-O., P.Q.	— mun.

#### Toronto, Ont.:

Toronto	— city
Ajax	— town
Etobicoke	— borough
Markham	— twp.
Markham	— village
Milton	— town
Oakville	— twp.
Pickering	— village
Pickering	

<sup>1</sup> Includes the Indian Reserve.

**APPENDIX A. Locations in Each Metropolitan Area – Concluded**

**Toronto, Ont. — Concluded:**

Port Credit  
Richmond Hill  
Scarborough  
Stouffville  
Streetsville  
Missassauga  
Vaughan  
Woodbridge  
York  
York E.  
York N.

### **Hamilton, Ont.:**

Hamilton  
Ancaster  
Beverly  
Binbrook  
Burlington  
Dundas  
Flamborough E.  
Flamborough W.  
Glanford  
Saltfleet  
Stoney Creek  
Waterdown

Kitchener, Ont.:

Kitchener	-city
Waterloo	-city
Ayr	-village
Bridgeport	-village
Dumfries N.	-twp.
Galt	-city
Hespeler	-town
Preston	-town
Waterloo	-twp.

### Sudbury, Ont.:

Sudbury  
Bleizard  
Chelmsford  
Coniston  
Copper Cliff  
Lively  
Neelon & Garson  
Rayside  
Waters  
Unorganized

London, Ont.;

London  
London  
Westminister

Windsor, Ont.

Windsor  
St. Claire Beach  
Sandwich S.  
Sandwich W.  
Tecumseh

Winnipeg, Man.:

Winnipeg	- city
Assiniboia	- mun.
Brooklands	- village
Charleswood	- mun.

## APPENDIX B. Glossary of Principal Terms Used

- 1. Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
- 2. Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part-time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
- 3. Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he performs. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he performs. The rates may be hourly, daily, weekly or monthly. These employees, previously governed by the Financial Administration Act are, as of February, 1967, included under the Public Service Employment Act. They are occupants of positions authorized by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
- 4. Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
- 5. Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
- 6. Casual employees:** An employee engaged on a casual basis, or for a period not exceeding 12 months. These personnel may perform the duties which would normally be carried out by salaried, prevailing rate or ships' crew employees. They may be paid out of either the Salaries and Wages Object or other financial objects of expenditure. For example, persons employed and paid out of monies provided for the repair and upkeep of furniture would be considered casual employees, unless engaged on a contractual basis.
- 7. Regular payroll:** The basic wage and salary payments to employees during a specified period of time, excluding overtime, retroactive and other payments, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".

# FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1968

## INTRODUCTION

This publication presents statistics on employment and payrolls, respecting Government of Canada employees in metropolitan areas, as of September 1968. Terms used in this publication are defined in the Glossary in Appendix B, page 22.

### Composition of the Metropolitan Areas

The nineteen metropolitan areas covered by this publication are those so defined for the purposes of the 1961 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 20. It will be noted in respect to the metropolitan area of Regina, Saskatoon and Calgary, that the boundaries are coincident with those of the cities themselves.

### Extent of Coverage

The publication contains statistics relating to employees of departments and departmental corporations (as designated in Schedules A and B respectively of the Financial Administration Act). Excluded, therefore, are statistics with respect to employees of agency corporations, proprietary corporations, and other agencies and corporations. Organizational units included as departmental corporations are:

Agricultural Stabilization Board  
Atomic Energy Control Board  
Dominion Coal Board  
Economic Council of Canada  
Fisheries Prices Support Board  
Municipal Development and Loan Board  
National Museums of Canada  
National Research Council  
Director of Soldier Settlement  
The Director, The Veterans' Land Act  
Unemployment Insurance Commission

Included are both the civilian and uniformed personnel of the Royal Canadian Mounted Police. Excluded in addition to employees of agency corporations, proprietary corporations and other agencies and corporations are:

Members of the Canadian Forces  
Employees in Revenue Post Offices  
Governor-General and Lieutenant-Governors  
Judges  
The Prime Minister, Speakers of the Senate and the House of Commons, Deputy Speakers of the House of Commons, Ministers of the Crown and Parliamentary Secretaries, and  
Members of boards and commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

The payroll data pertains to regular payrolls only and consequently excludes overtime or retro-active salary increase payments.

### Comparability Between Number of Employees and Regular Payrolls

Users are cautioned against attempting to derive average salary rates by making direct comparison between the number of employees and the payroll, as data relating to each are reported on different and therefore non-comparable bases.

### Analysis of Data

Federal government employees, in departments and departmental corporations, numbered 234.4 thousand at the end of September 1968. This publication provides an analysis of the data relating to the 166.6 thousand or 71.0 per cent that were employed in metropolitan areas.

The number of employees in the metropolitan areas increased by 9.7 thousand or 6.2 per cent over the total employed at the end of September 1967. The main contributing factor for the increase, in the number of employees, was the transfer of a number of employees in semi-staff post offices to full operational status.

Metropolitan areas with the greater number of employees were: Ottawa-Hull, 57.5 thousand (24.5 per cent); Montreal 26.3 thousand (11.2 per cent); Toronto, 19.4 thousand (8.3 per cent); Vancouver, 11.3 thousand (4.8 per cent); and Halifax, 9.7 thousand (4.2 per cent). Comparable figures for September 1967 are: Ottawa-Hull, 56.3 thousand (23.8 per cent); Montreal 21.7 thousand (9.2 per cent); Toronto, 17.1 thousand (7.3 per cent); Vancouver, 10.0 thousand (4.2 per cent); and Halifax 10.0 thousand (4.2 per cent).

There was a slight increase in the number of female employees during the year. In the Ottawa-Hull area, where there was the highest female ratio, 37 out of every hundred employees were females, this compares with 36 out of every hundred at September 30, 1967. Halifax, with two females out of every hundred, had the lowest ratio.

Of the total federal employees, 74 per cent of salaried; 73 per cent of ships' officers and crews; 52 per cent of prevailing rate; and, 58 per cent of casuals were employed in the metropolitan areas. Twenty-six per cent of all salaried employees were in the Ottawa-Hull area.

Of the twenty-six departments and thirteen departmental corporations, included in this report, there were three departments and three departmental

corporations whose personnel were entirely employed in the Ottawa-Hull area. These are listed below:

**Departments:**

External Affairs,  
Secretary to the Governor-General, Office of the

**Legislature:**

The Senate  
House of Commons  
Library of Parliament

**Departmental Corporations:**

Atomic Energy Control Board  
Dominion Coal Board  
National Museums of Canada

Following is a commentary on the most significant changes which occurred during the year:

**Finance, Department of**

The statistics indicate a decrease of 81 per cent in the number of employees of this department. This decrease resulted from the transfer of the functions and staff of the Office of the Comptroller of the Treasury to the Department of Supply and Services and various other departments.

**Post Office**

The number of employees increased by 9,758 or 36 per cent as a result of the transfer of a number of employees from semi-staff post offices to full operational status.

**Secretary of State, Department of**

The number of employees in this department increased to 3,758 at the end of September 1968 from 1,002 at the end of September 1967. This was primarily due to the inclusion, under this department, of several branches formerly shown separately. These are:

Canadian Radio-Television Commission (formerly the Board of Broadcast Governors)  
Chief Electoral Officer, Office of the  
National Film Board  
National Library  
Public Archives  
Public Service Commission

**Solicitor General, Department of the**

Statistics with respect to the Correctional Services indicate a considerable decrease from the previous years total, due mainly to the exclusion of the guards at the federal penitentiaries. These guards, up to and including the period under review, were not subject to the provisions of the Civil Service Act and should not have been included in the previous publications.

**Supply and Services, Department of**

This department was established to assume the functions of the former Department of Defence Production and some of the responsibilities of the Office of the Comptroller of the Treasury.

**Historical Analysis**

This publication was initially produced in this form, as of March 31, 1961, and as of September 30 thereafter. The period from March 31, 1961 to September 30, 1968 has seen an increase in total federal government employees of 32,992 or 16 per cent. Those employed in Metropolitan areas, during the period, increased by 35,959 or 27.5 per cent, while total annual payrolls in metropolitan areas increased by 87 per cent.

Employment changes in particular metropolitan areas during the period March 31, 1961 to September 30, 1968, have varied. The greatest change occurred in the Montreal area where there was an increase of 8,875 employees or 50.8 per cent. The number of federal government employees in the Toronto area increased by 4,316 or 28.5 per cent. There were 2,758 more employees in the Vancouver area at the end of the period, than at the beginning. This represented an increase of 32.3 per cent. The Ottawa-Hull area, in which there is the greatest concentration of federal government employees, reflected an increase of 11,395 or 24.7 per cent during the period.

**APPENDIX B. Glossary of Principal Terms Used**

- 1. Metropolitan Areas:** These are essentially the same as those developed by the Census Division of the Dominion Bureau of Statistics. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
- 2. Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part-time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board. Ships' officers are not classified as salaried owing to their special treatment under the Financial Administration Act.
- 3. Prevailing rate employee:** A person employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he performs. His rate of pay may also be based on rates prevailing in any area in Canada for work comparable to that which he performs. The rates may be hourly, daily, weekly or monthly. These employees, previously governed by the Financial Administration Act are, as of February, 1967, included under the Public Service Employment Act. They are occupants of positions authorized by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
- 4. Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act—Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
- 5. Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of, or chartered by, or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. These employees are paid on the basis of a monthly salary rate determined by the Treasury Board after consultation with the Department of Labour. They are governed by the Financial Administration Act—Ships' Crews Regulations. These employees are occupants of positions established by the Treasury Board, which, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
- 6. Casual employees:** An employee engaged on a casual basis, or for a period not exceeding 12 months. These personnel may perform the duties which would normally be carried out by salaried, prevailing rate or ships' crew employees. They may be paid out of either the Salaries and Wages Object or other financial objects of expenditure. For example, persons employed and paid out of monies provided for the repair and upkeep of furniture would be considered casual employees, unless engaged on a contractual basis.
- 7. Regular payroll:** The basic wage and salary payments to employees during a specified period of time, excluding overtime, retroactive and other payments, but before deductions for income tax, etc. Includes payroll for all those employed during the month whether they were on strength at the end of the month or not. If there were semi-monthly, fortnightly or weekly payments in a month, the total amount paid for the month constitutes the "Regular payroll".

FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1970

Government  
Publications

Introduction

This publication presents statistics on employment and payrolls, respecting Government of Canada employees in metropolitan areas, as of September 1970. The latest available preceding issue in this series related to data for September 1968. Data as of September 1969 were not available for publication.

Earlier issues in this series provided employment and payroll data under the categories "salaried", "prevailing rate", "ships' officers and crews" and "casuals and others". Effective April 1, 1969 a system of identifying employees by occupational category was adapted by the federal government. This publication is the first in this series to present data within these occupational categories.

Terms used in this publication are defined in the glossary in Appendix B, page 33.

Composition of the Metropolitan Areas

The nineteen metropolitan areas covered by this publication are those so defined for purposes of the 1961 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 30. It will be noted in respect of the metropolitan areas of Regina, Saskatoon and Calgary, that the boundaries are coincident with those of the cities themselves.

Extent of Coverage

This publication contains statistics relating to employees of departments and departmental corporations (as designated in Schedules A and B respectively of the Financial Administration Act). Excluded therefore, are statistics with respect to employees of agency corporations, proprietary corporations and other agencies and corporations. Organization units included as departmental corporations are:

Agricultural Stabilization Board

Atomic Energy Control Board

Director of Soldier Settlement

Economic Council of Canada

Fisheries Prices Support Board

Medical Research Council

National Museums of Canada

National Research Council

Science Council of Canada

The Director, The Veterans' Land Act

Included are both the civilian and uniformed personnel of the Royal Canadian Mounted Police. Excluded in addition to employees of agency corporations, proprietary corporations and other agencies and corporations are:

Members of the Canadian Forces

Employees of Revenue Post Offices

Governor General and Lieutenant-Governor

Judges

The Prime Minister, Speakers of the Senate and House of Commons, Deputy Speaker of the House of the Crown, Parliamentary Secretaries, Members of Parliament and Senators.

Members of boards and commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

The payroll data pertains to regular payrolls only and consequently excludes overtime and retro-active salary increase payments.

#### Comparability Between Number of Employees and Regular Payrolls

Users are cautioned against attempting to derive average salary rates by making direct comparison between the number of employees and the payroll, as data relating to each are reported on different and therefore non-comparable bases.

#### Analysis of Data

Federal government employees, in departments and departmental corporations, numbered 237 thousand at the end of September 1970. This publication provides an analysis of the 155.5 thousand or 65.6 percent that were employed in metropolitan areas. Data for September 1969 being unavailable it is not possible to provide comparable information.

Metropolitan areas with the greater number of employees were: Ottawa-Hull, 57.6 thousand (24.3 per cent); Montreal, 21.4 thousand (9.0 per cent); Toronto, 16.6 thousand (7.0 per cent); Vancouver, 10.0 thousand (4.2 per cent); and Halifax, 9.6 thousand (4.1 per cent).

Female employees numbered 48 thousand with the Ottawa-Hull area having the highest ratio with 38 out of every hundred employees being female. Quebec, with 2 females out of every hundred employees, had the lowest ratio.

Of the twenty-six departments and eleven departmental corporations, included in this report, there were two departments and four departmental corporations whose personnel were entirely employed in the Ottawa-Hull area. These are listed below:

##### Departments:

Secretary to the Governor General, Office of the

##### Parliament:

The Senate

House of Commons

Library of Parliament

##### Departmental Corporations:

Economic Council of Canada

Medical Research Council

National Museums of Canada

Science Council of Canada

Statistics Canada being precluded from publishing data which might permit the identification of individuals, it has been necessary to omit data concerning 339 employees with a payroll of \$58 thousand from the main body of Tables 5 and 6 and include these data in the grand totals only.

Historical Analysis

This publication was initially in this form as of March 31, 1961 and as of September 30 thereafter. The period from March 31, 1961 to September 30, 1970, has seen an increase in total federal government employees of 35,755 or 17.8 per cent. Those employed in metropolitan areas, during the period, increased by 24,911 or 19.1 per cent, while the total annual payrolls, in metropolitan areas, increased by 97.3 per cent.

Employment changes in particular metropolitan areas during the period March 31, 1961 to September 30, 1970, have varied. The Ottawa-Hull area, in which there is the greatest concentration of federal government employees, recorded the greatest change with an increase of 11,496 or 24.9 per cent. Following the Ottawa-Hull area in order of the greatest change were: Montreal with 3,899 more employees or a 22.2 per cent increase; Vancouver, 1,481 or a 17.3 per cent increase, and, Toronto, 1,511 or a 9.9 per cent increase.

APPENDIX B. Glossary of Principal Terms Used

1. Metropolitan Areas these are essentially the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. Executive Category is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions.
3. Scientific and Professional Category is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions, and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. Some fields included within this occupational category are; auditing, biological sciences, dentistry, economics, sociology and statistics, engineering and land survey.
4. Administrative and Foreign Service Category is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries, and the requirements of internal management in the Public Service of Canada.
5. Technical Category is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, and the preparation, inspection and measurement of biological, chemical, and physical substances and materials, and the design, construction, inspection, operation and maintenance of complex equipment, systems and process, and the performance of similar technical duties.
6. Administrative Support Category is composed of occupational groups engaged in the preparation, transcribing, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations.
7. Operational Category is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles, and in the provision of postal, protective, correctional, personal or domestic services.
8. Casual and Others Category is composed of all employees in Departments and Departmental corporations of the Government of Canada who are not defined as in Executive, Scientific and Professional, Administrative and Foreign Service, Technical, Administrative Support or Operational categories.
9. Regular Payroll the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.

FEDERAL GOVERNMENT EMPLOYMENT IN METROPOLITAN AREAS

SEPTEMBER 1971

Introduction

This publication presents statistics on employment and payrolls, with respect to Government of Canada employees in metropolitan areas, as of September 1971. Terms used in this publication are defined in the Glossary in Appendix B, page 33.

Composition of the Metropolitan Areas

The nineteen metropolitan areas covered by this publication are those so defined for purposes of the 1961 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 30. It will be noted in respect of the metropolitan areas of Regina, Saskatoon and Calgary, that the boundaries are coincident with those of the cities themselves.

Extent of Coverage

This publication contains statistics relating to employees of departments and departmental corporations (as designated in Schedules A and B respectively of the Financial Administration Act). Excluded therefore, are statistics with respect to employees of agency corporations, proprietary corporations and other agencies and corporations. Organization units included as departmental corporations are:

Agricultural Stabilization Board

Atomic Energy Control Board

Director of Soldier Settlement

Economic Council of Canada

Fisheries Prices Support Board

Medical Research Council

National Museums of Canada

National Research Council

Science Council of Canada

The Director, The Veterans' Land Act

Unemployment Insurance Commission

Included are both the civilian and uniformed personnel of the Royal Canadian Mounted Police. Excluded in addition to employees of agency corporations, proprietary corporations and other agencies and corporations are:

Members of the Canadian Forces

Employees of Revenue Post Offices

Governor General and Lieutenant-Governors

Judges

The Prime Minister

Speakers of the Senate and House of Commons

Deputy Speaker of the House of Commons

Ministers of the Crown

Parliamentary Secretaries

Members of Parliament and Senators

Members of boards and commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

The payroll data pertains to regular payrolls only and consequently excludes overtime and retroactive salary increase payments.

#### Comparability Between Number of Employees and Regular Payrolls

Users are cautioned against attempting to derive average salary rates by making direct comparison between the number of employees and the payroll, as data relating to each are reported on different and therefore non-comparative bases.

#### Analysis of Data

Federal government employees, in departments and departmental corporations, number 262 thousand at the end of September 1971. This publication provides an analysis of the 174.4 thousand or 66.7 per cent that were employed in metropolitan areas.

The number of employees, in the metropolitan areas, increased by 18.9 thousand or 8.9 per cent from the total at the end of September 1970. Departments which recorded the largest increases were: Post Office, 3.4 thousand; Solicitor General, 2.1 thousand, with the greater part occurring in the R.C.M.P.; Statistics Canada, 1.3 thousand, due primarily to the hiring of casual employees for the 1971 Census; National Defence, 1.3 thousand; Labour, 1.2 thousand; and, National Revenue, 1.1 thousand.

Included herein, for the first time, are data for the newly established Departments of Environment and Urban Affairs. The Department of Environment consists of the former Department of Fisheries and Forestry; Water Resources Program, Department of Energy, Mines and Resources; Canadian Wildlife Service, Department of Indian Affairs and Northern Development; Environmental Health Service, Department of National Health and Welfare; and, Meteorological Service, Department of Transport. The Department of Urban Affairs was staffed from other departments and also, from outside the government service.

Metropolitan areas with the greater numbers of employees were: Ottawa-Hull, 65.9 thousand; Montreal, 23.4 thousand; Toronto, 18.4 thousand; Vancouver, 10.9 thousand; and Halifax, 10.8 thousand. Comparable figures for September 1970 are: Ottawa-Hull, 57.6 thousand; Montreal, 21.4 thousand; Toronto, 16.6 thousand; Vancouver, 10.0 thousand; and Halifax, 9.6 thousand.

There was a slight increase in the number of female employees during the year. In the Ottawa-Hull area, where there was the highest proportion of female employees, 40 out of every hundred employees were female, this compares with 38 out of every hundred at September 30, 1970. St. John's, Newfoundland, with 2 females out of every hundred, had the lowest proportion.

Of the twenty-eight departments and eleven departmental corporations, included in this report, there were four departments and four departmental corporations whose personnel were entirely employed in the Ottawa-Hull area. These are listed below:

Departments:

Secretary to the Governor General, Office of the

Parliament:

The Senate

House of Commons

Library of Parliament

Privy Council

Urban Affairs

Departmental Corporations:

Economic Council of Canada

Medical Research Council

National Museums of Canada

Science Council of Canada

Statistics Canada being precluded from publishing data which might permit identification of individuals, it has been necessary to omit data concerning 328 employees with a payroll of \$224 thousand from the main body of Tables 5 and 6 and include these data in the grand totals only.

Historical Analysis

This publication was initially presented in this form as of March 31, 1961 and as at September 30 thereafter. Total federal government employees, as at September 30, 1971, represented an increase of 58,878 or 29.0 per cent over the total at March 31, 1961. Those employed in metropolitan areas, during the period, increased by 43,797 or 33.5 per cent, while the total annual payrolls, in metropolitan areas, increased by 134.2 per cent.

Employment changes in particular metropolitan areas during the period March 31, 1961 to September 30, 1971, have varied. The Ottawa-Hull area, in which there is the greatest concentration of federal government employees, recorded the greatest change with an increase of 19,833 or 43.0 per cent. Following the Ottawa-Hull area in order of the greatest change were: Montreal with 5,917 more employees or a 33.9 per cent increase; Vancouver, 2,365 or a 27.7 per cent increase, and, Toronto, 3,321 or a 22.0 per cent increase.

APPENDIX B. Glossary of Principal Terms Used

1. Metropolitan Areas are essentially the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. Executive Category is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions.
3. Scientific and Professional Category is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions, and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. Some fields included within this occupational category are; auditing, biological sciences, dentistry, economics, sociology and statistics, engineering and land survey.
4. Administrative and Foreign Service Category is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries, and the requirements of internal management in the Public Service of Canada.
5. Technical Category is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, and the preparation, inspection and measurement of biological, chemical, and physical substances and materials, and the design, construction, inspection, operation and maintenance of complex equipment, systems and process, and the performance of similar technical duties.
6. Administrative Support Category is composed of occupational groups engaged in the preparation, transcribing, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations.
7. Operational Category is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles, and in the provision of postal, protective, correctional, personal or domestic services.
8. Casual and Others Category is composed of all employees in Departments and Departmental corporations of the Government of Canada who are not defined as in Executive, Scientific and Professional, Administrative and Foreign Service, Technical, Administrative Support or Operational categories.
9. Regular Payroll is the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.

... n'ayant pas lieu de figurer.

- néant ou zéro.

-- nombres infimes.

P nombres provisoires.

R nombres rectifiés.

X confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

FEDERAL GOVERNMENT EMPLOYMENT IN  
METROPOLITAN AREAS

L'EMPLOI DANS L'ADMINISTRATION PUBLIQUE FÉDÉRALE  
DANS LES RÉGIONS MÉTROPOLITAINES

SEPTEMBER - 1972 - SEPTEMBRE

Introduction

This publication presents statistics on employment and payrolls, with respect to Government of Canada employees in metropolitan areas, as of September 1972. Terms used in this publication are defined in the Glossary in Appendix B, page 27.

Composition of the Metropolitan Areas

The twenty-two metropolitan areas covered by this publication are those so defined for purposes of the 1971 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 24. It will be noted that three new metropolitan areas, Chicoutimi-Jonquière, St. Catharines-Niagara and Thunder Bay have been added to that list.

Extent of Coverage

The contents relate to employees of Ministries of State, departments and departmental corporations (as designated in Schedules A and B respectively of the Financial Administration Act). Excluded therefore, are statistics with respect to employees of agency corporations, proprietary corporations and other agencies and corporations. Organization units included as departmental corporations are:

Agricultural Stabilization Board  
Atomic Energy Control Board  
Economic Council of Canada  
Fisheries Prices Support Board  
Medical Research Council  
National Museums of Canada  
National Research Council  
Science Council of Canada  
Unemployment Insurance Commission  
Veterans' Land Administration

Included are both the civilian and uniformed personnel of the Royal Canadian Mounted Police. Excluded in addition to employees of agency corporations, proprietary corporations and other agencies and corporations are:

Members of the Canadian Forces  
Employees of Revenue Post Offices  
Governor General and Lieutenant-Governors  
Judges  
The Prime Minister  
Speakers of the Senate and House of Commons  
Deputy Speaker of the House of Commons  
Ministers of the Crown  
Parliamentary Secretaries  
Members of Parliament and Senators  
Members of boards and commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

The payroll data pertains to regular payrolls only and consequently excludes overtime and retroactive salary increase payments.

Introduction

Le présent bulletin contient des statistiques sur l'emploi et la rémunération des employés de l'administration publique fédérale dans les régions métropolitaines, au 30 septembre 1972. On trouvera un glossaire des principaux termes utilisés dans la Partie B, à la page 27.

Composition des régions métropolitaines

Les 22 régions métropolitaines qui font l'objet de cette publication ont été définis à l'occasion du recensement de la population de 1971. Une liste des régions métropolitaines et de leur territoire apparaît à l'appendice A, page 24. Il faut noter que trois nouvelles régions métropolitaines ont été ajoutées à la liste, ce sont: Chicoutimi-Jonquière, St. Catharines-Niagara, et Thunder Bay.

L'univers

Cette publication comprend la statistique sur les employés des départements d'État, des ministères et des corporations de département (tels qu'ils apparaissent aux annexes A et B de la Loi sur l'administration financière). Par conséquent, la statistique des corporations de mandataire, des corporations de propriétaire et des autres organismes et corporations est exclue. Les organismes considérés comme corporations de département sont:

Office de stabilisation des prix agricoles  
Commission de contrôle de l'énergie atomique  
Conseil économique du Canada  
Office de soutien des prix des produits de la pêche  
Conseil des recherches médicales  
Musées nationaux du Canada  
Conseil national de recherches  
Conseil des sciences du Canada  
Commission d'assurance-chômage  
Office de l'établissement agricole des anciens combattants

Sont inclus également les agents et le personnel civil de la Gendarmerie royale du Canada. En plus des employés des corporations de mandataire et autres organismes et corporations, sont exclus:

Les membres des Forces canadiennes  
Les employés des bureaux de postes à commission  
Le gouverneur général et les lieutenants gouverneurs  
Les juges  
Le premier ministre  
Le président du sénat et l'orateur de la chambre des communes  
L'orateur suppléant de la chambre des communes  
Les ministres de la Couronne  
Les secrétaires parlementaires  
Les députés et les sénateurs  
Les membres des comités, des commissions et d'autres organismes administratifs dont la rétribution consiste en indemnité journalière ou honoraires forfaitaires.

Les données concernant la rémunération se rapportent à la rémunération ordinaire non-comprise le paiement d'heures supplémentaires et les rappels.

### Comparability Between Number of Employees and Regular Payrolls

Users are cautioned against attempting to derive average salary rates by making direct comparison between the number of employees and the payroll, data relating to each are reported on different bases and are, therefore, not comparable.

### Analysis of Data

Federal government employees, in Ministries of State, departments and departmental corporations, numbered 277.3 thousand at the end of September 1972. This publication provides an analysis of the 191.0 thousand or 68.9 % that were employed in metropolitan areas.

The number of employees, in the metropolitan areas, increased by 16.5 thousand or 9.5 % from the total at the end of September 1971. Departments which recorded the largest increases were: Manpower and Immigration 7.7 thousand, it was mainly due to the inclusion of the Unemployment Insurance Commission, which was previously included with the Department of Labour; Post Office, 5.7 thousand; National Revenue, 2.4 thousand; National Defence, 1.7 thousand; and, Secretary of State, 1.2 thousand.

Included herein, for the first time, are data for the newly established Ministry of State for Science and Technology, with the Science Council of Canada formerly with the Privy Council, as its main body for scientific and technological research and development.

Metropolitan areas with the greater numbers of employees were: Ottawa-Hull, 70.3 thousand; Montreal, 25.4 thousand; Toronto, 20.0 thousand; Vancouver, 12.1 thousand; and Halifax, 11.4 thousand. Comparable figures for September 1971 are: Ottawa-Hull, 65.9 thousand; Montreal, 23.4 thousand; Toronto, 18.4 thousand; Vancouver, 10.9 thousand; and, Halifax, 10.8 thousand.

There was a slight increase in the number of female employees during the year. In the Ottawa-Hull area, where there was the highest proportion of female employees, 40 out of every hundred employees were female. St. John's, Newfoundland, with 2 females out of every hundred, had the lowest proportion.

Of the twenty-nine departments and ten departmental corporations, included in this report, there were five departments and four departmental corporations whose personnel were entirely employed in the Ottawa-Hull area. These are listed below:

Departments:  
Governor General, Office of the Parliament:

The Senate  
House of Commons  
Library of Parliament  
Privy Council  
Science and Technology  
Urban Affairs

Departmental Corporations:  
Economic Council of Canada  
Medical Research Council  
National Museums of Canada  
Science Council of Canada

### Comparaison entre le nombre d'employés et la rémunération ordinaire

Les utilisateurs ne devront pas tirer de comparaison directe entre le nombre d'employés et la rémunération, les données concernant chacun sont déclarés différemment, donc sur des bases non comparables.

### Analyse des données

Le nombre d'employés de l'administration publique fédérale dans les départements d'État, ministères et corporations de département, totalisa 277,291 à la fin de septembre 1972. Le présent bulletin présente une analyse des 190,951 ou 68.9 % des employés dans les régions métropolitaines.

Le nombre d'employés dans les régions métropolitaines augmenta de 16,500 ou 9.5 % par rapport au total à la fin de septembre 1971. Les ministères qui enregistrent les plus fortes variations sont: Main-d'œuvre et Immigration 7,700, cette augmentation résulte principalement à l'inclusion de la Commission d'assurance-chômage précédemment incluse dans le ministère du travail; les postes 5,700; Revenu national 2,400; Défense nationale 1,700 et Secrétariat d'État 1,200.

Les données relatives au nouveau ministère des Sciences et technologie sont prises en compte pour la première fois. Ce ministère comprend comme organisme principal de recherches et développement le Conseil des sciences du Canada, faisant partie autrefois du conseil privé.

Les régions métropolitaines qui enregistrent le plus grand nombre d'employés furent: Ottawa-Hull 70,300; Montréal 25,400; Toronto 20,000; Vancouver 12,100 employés. Les chiffres comparables pour septembre 1971 sont: Ottawa-Hull 65,900 Montréal 23,400; Toronto 18,400; Vancouver 10,900 et Halifax 10,800.

Le nombre de femmes employées augmenta légèrement durant l'année. La région Ottawa-Hull rend compte de la plus grande concentration de femmes employées avec 40 % et St. John's, Terre-Neuve fut considérée la plus basse avec une proportion de 2 %.

Des vingt-neuf ministères et dix corporations de département compris dans ce bulletin, cinq ministères et quatre corporations de département avaient la totalité de leur employés dans la région d'Ottawa-Hull. Ce sont:

#### Ministères:

Secrétaire du gouverneur général, bureau du Parlement:

Parlement  
Le sénat  
La chambre des communes  
Bibliothèque du Parlement

Conseil privé  
Sciences et technologie

Affaires urbaines

#### Corporations de département:

Conseil économique du Canada  
Conseil des recherches médicales  
Musées nationaux du Canada

Conseil des sciences du Canada

Statistique Canada n'a pas le droit de publier des données que l'on pourrait rapporter à des individus; il a donc fallu omettre des tableaux 5 et 6 les données concernant 366 employés et leur rémunération de 273,000 dollars et les inclure dans le total général seulement.

Statistics Canada being precluded from publishing data which might permit identification of individuals, it has been necessary to omit data concerning 366 employees with a payroll of \$273 thousand from the main body of Tables 5 and 6 and include these data in the grand totals only.

#### Historical Analysis

This publication was initially presented in this form as of March 31, 1961 and as at September 30 thereafter. Total federal government employees, as at September 30, 1972, represented an increase of 75,889 or 37.7 % over the total at March 31, 1961. Those employed in metropolitan areas, during the period, increased by 60,335 or 46.2 % while the total annual payrolls, in metropolitan areas, increased by 184.1 %.

Employment changes in particular metropolitan areas during the period March 31, 1961 to September 30, 1972, have varied. The Ottawa-Hull area, in which there is the greatest concentration of federal government employees, recorded the greatest change with an increase of 24,198 or 52.5 %. Following the Ottawa-Hull area in order of the greatest change were: Montreal with 7,887 more employees or a 45.1 % increase; Vancouver, 3,555 or a 41.7 % increase, and, Toronto, 4,919 or a 32.5 % increase.

#### Analyse chronologique

Ce bulletin a d'abord été publié en anglais le 31 mars 1961; par la suite au 30 septembre. Le nombre total des employés de l'administration publique fédérale au 30 septembre 1972 avait augmenté de 75,889 ou 37.7 % par rapport au total du 31 mars 1961. Le nombre des personnes employées dans les régions métropolitaines au cours de cette période a augmenté de 60,335 ou 46.2 % tandis que la rémunération totale dans les régions métropolitaines a augmenté de 184.1 %.

Il y a eu de nombreuses variations de l'emploi dans certaines régions métropolitaines au cours de la période s'échelonnant entre le 31 mars 1961 et le 30 septembre 1972. La région Ottawa-Hull qui rend compte de la plus grande concentration de fonctionnaires fédéraux, a enregistré la plus grande variation avec une augmentation de 24,198 ou 52.5 %, suivie par Montréal qui a connu une augmentation de 7,887 employés ou 45.1 %, Vancouver avec une augmentation de 3,555 ou 41.7 % et Toronto, avec une augmentation de 4,919 ou 32.5 %.

APPENDIX B. Glossary of Principal Terms Used

1. Metropolitan Areas are the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. Executive Category is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions.
3. Scientific and Professional Category is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions, and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. Some fields included within this occupational category are; auditing, biological sciences, dentistry, economics, sociology and statistics, engineering and land survey.
4. Administrative and Foreign Service Category is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries, and the requirements of internal management in the Public Service of Canada.
5. Technical Category is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, and the preparation, inspection and measurement of biological, chemical, and physical substances and materials, and the design, construction, inspection, operation and maintenance of complex equipment, systems and process, and the performance of similar technical duties.
6. Administrative Support Category is composed of occupational groups engaged in the preparation, transcribing, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations.
7. Operational Category is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles, and in the provision of postal, protective, correctional, personal or domestic services.
8. Casuals and Others Category:
  - (a) Casuals are:
    - (i) Individuals employed on a casual basis or for a temporary period not exceeding six months
    - (ii) Individuals employed for a specified term of more than six months.
  - (b) Others are:  
Regular employees of a department or a departmental corporation for whom no occupational breakdown is available to our main source of information, Central Personnel Records Division, Department of Supply and Services.
9. Regular Payroll is the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.

APPENDICE B. Glossaire des principaux termes utilisés

1. Les régions métropolitaines sont celles qui ont été établies par la Division du recensement de Statistique Canada. Elles comprennent les banlieues ou des territoires à population dense situés hors des limites des grandes villes du Canada mais qui leurs sont contigus.
2. La catégorie de la direction; se compose des groupes d'occupation qui élaborent les politiques administratives, dirigent les programmes administratifs et remplissent des fonctions connexes exigeant des aptitudes supérieures pour l'utilisation des ressources ou l'institution ou la modification de fonctions administratives.
3. La catégorie scientifique et professionnelle: se compose des groupes d'occupation qui appliquent de vastes connaissances acquises à l'université dans les domaines spécifiés dans les définitions du groupe, et des groupes de professions dont l'exercice au Canada est généralement autorisé et réglementé par des organismes légalement constitués. Au nombre des catégories d'occupation nous retrouvons la vérification, les sciences biologiques, l'art dentaire, l'économique, la sociologie et la statistique, le génie et l'arpentage.
4. La catégorie administrative et du service extérieur: se compose des groupes d'occupation qui préparent, exécutent, dirigent et surveillent des programmes à l'intention du public ou intéressant les relations politiques et économiques du Canada avec les autres pays, et répondent aux besoins de la gestion interne dans la fonction publique du Canada.
5. La catégorie technique: se compose des groupes d'occupation qui effectuent des analyses, expériences et enquêtes dans les sciences naturelles, physiques et sociales, ainsi que la préparation, l'inspection, et la mesure des substances et des matières biologiques chimiques et physiques et la création, la construction, l'inspection, le fonctionnement et l'entretien d'appareils, de systèmes et de mécanismes complexes et l'exécution de tâches techniques similaires.
6. La catégories du soutien administratif: se compose de groupes d'occupation chargés de préparer, transcrire, transmettre, organiser et tenir des documents, des rapports et des communications au moyen de procédés manuels, ou par l'installation de diverses machines et appareils, ou d'appliquer formellement les règles et règlements.
7. La catégorie exploitation: se compose des groupes d'occupation qui exercent un métier ou exécutent un travail non spécialisé ayant rapport aux travaux de fabrication, d'entretien et de réparation qu'exigent le fonctionnement de machines, d'appareils et de véhicules, ainsi que les services postaux, de protection, correctionnels, personnels ou domestiques.
8. La catégories des employés temporaires et autres:
  - (a) les temporaires sont:
    - (i) Des personnes employées à titre temporaire ou pour une période ne dépassant pas six mois
    - (ii) Des personnes employées pour une période déterminée de plus de six mois.
  - (b) les autres sont:  
Des employés permanents d'un ministère ou d'une corporation de département pour lesquels notre principale source d'information, donc la Division Centrale de Renseignements sur le Personnel n'a pas réussi à obtenir les détails par groupes d'occupation.
9. Rémunération ordinaire: salaires et traitements de base versés à des employés au cours d'une période déterminée, non compris le paiement d'heures supplémentaires, les rappels et les paiement spéciaux.

FEDERAL GOVERNMENT EMPLOYMENT IN  
METROPOLITAN AREAS

L'EMPLOI DANS L'ADMINISTRATION PUBLIQUE FÉDÉRALE  
DANS LES RÉGIONS MÉTROPOLITAINES

SEPTEMBER - 1973 - SEPTEMBRE

INTRODUCTION

This publication presents statistics on employment and payroll, with respect to Government of Canada employees in metropolitan areas, as of September 1973. Terms used in this publication are defined in the Glossary in Appendix B, page 29.

Le présent bulletin contient des statistiques sur l'emploi et la rémunération des employés de l'administration publique fédérale dans les régions métropolitaines, au 30 septembre 1973. On trouvera un glossaire des principaux termes utilisés dans la partie B, à la page 29.

Composition of the metropolitan areas:

The twenty-two metropolitan areas covered by this publication are those so defined for purposes of the 1971 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 26.

Composition des régions métropolitaines:

Les 22 régions métropolitaines qui font l'objet de cette publication ont été définis à l'occasion du recensement de la population de 1971. Une liste des régions métropolitaines et de leur territoire apparaît à l'appendice A, page 26.

Extent of coverage:

The contents relate to employees of Ministries of State, departments and departmental corporations (as designated in Schedules A and B respectively of the Financial Administration Act). Excluded therefore, are statistics with respect to employees of agency corporations, proprietary corporations and other agencies and corporations. Organization units included as departmental corporations are:

Agricultural Stabilization Board  
Atomic Energy Control Board  
Economic Council of Canada  
Fisheries Prices Support Board  
Medical Research Council  
National Museums of Canada  
National Research Council  
Science Council of Canada  
Unemployment Insurance Commission  
Veterans' Land Administration

Included are both the civilian and uniformed personnel of the Royal Canadian Mounted Police. Excluded in addition to employees of agency corporations, proprietary corporations and other agencies and corporations are:

Members of the Canadian Forces  
Employees of Revenue Post Offices  
Governor General and Lieutenant-Governors  
Judges  
The Prime Minister  
Speakers of the Senate and House of Commons  
Deputy Speaker of the House of Commons  
Ministers of the Crown  
Parliamentary Secretaries  
Members of Parliament and Senators  
Members of boards and commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

Regular payroll excludes overtime and retroactive salary increase payments.

L'univers:

Cette publication comprend la statistique sur les employés des départements d'état, des ministères et des corporations de département (tels qu'ils apparaissent aux annexes A et B de la Loi sur l'administration financière). Par conséquent, la statistique des corporations de mandataire, des corporations de propriété et des autres organismes et corporations est exclue. Les organismes considérés comme corporations de département sont:

Office de stabilisation des prix agricoles  
Commission de contrôle de l'énergie atomique  
Conseil économique du Canada  
Office de soutien des prix des produits de la pêche  
Conseil des recherches médicales  
Musées nationaux du Canada  
Conseil national de recherches  
Conseil des sciences du Canada  
Commission d'assurance-chômage  
Office de l'établissement agricole des anciens combattants

Sont inclus également les agents et le personnel civil de la Gendarmerie royale du Canada. En plus des employés des corporations de mandataire et autres organismes et corporations, sont exclus:

Les membres des Forces canadiennes  
Les employés des bureaux de postes à commission  
Le gouverneur général et les lieutenants gouverneurs  
Les juges  
Le premier ministre  
Le président du Sénat et l'orateur de la Chambre des communes  
L'orateur suppléant de la Chambre des communes  
Les ministres de la Couronne  
Les secrétaires parlementaires  
Les députés et les sénateurs  
Les membres des comités, des commissions et d'autres organismes administratifs dont la rétribution consiste en indemnité journalière ou honoraires forfaitaires.

La rémunération ordinaire ne comprend pas le paiement d'heures supplémentaires et les rappels.

Comparability between number of employees and regular payroll:

Users are cautioned against attempting to derive average salary rates by making direct comparison between the number of employees and the payroll, data relating to each are reported on different bases and are, therefore, not comparable.

Analysis of data:

Federal government employees, in Ministries of State, departments and departmental corporations, numbered 289.0 thousand at the end of September 1973. This publication provides an analysis of the 203.0 thousand or 70.2% that were employed in metropolitan areas.

The number of employees, in the metropolitan areas, increased by 12.0 thousand or 6.3% from the total at the end of September 1972. Departments which recorded the largest increases were: Manpower and Immigration 1.0 thousand, it was mainly due to an increase in the number of employees working for the immigration program and the Unemployment Insurance Commission, the former occurred mostly in the Toronto, Montreal and Ottawa-Hull metropolitan areas; National Revenue 0.9 thousand; Secretary of State 0.7 thousand; Post Office 0.7 thousand; Supply and Services 0.6 thousand. Those which recorded a decrease were National Defence 2.4 thousand and Veterans Affairs 1.2 thousand.

Metropolitan areas with the greater numbers of employees were: Ottawa-Hull, 76.8 thousand; Montreal, 25.7 thousand; Toronto, 21.4 thousand; Vancouver, 13.1 thousand; and Halifax, 11.9 thousand. Comparable figures for September 1972 are: Ottawa-Hull, 70.3 thousand; Montreal, 25.4 thousand; Toronto, 20.0 thousand; Vancouver, 12.1 thousand; and Halifax, 11.4 thousand.

There was a slight increase in the number of female employees during the year. In the Ottawa-Hull area, where there was the highest proportion of female employees, 40 out of every hundred employees were female. St. John's, Newfoundland, with 2 females out of every hundred, had the lowest proportion.

Of the twenty-nine departments and ten departmental corporations, included in this report, there were five departments and four departmental corporations whose personnel were entirely employed in the Ottawa-Hull area. These are listed below.

**Departments:**

Governor General, Office of the Parliament;

The Senate

House of Commons

Library of Parliament

Privy Council

Science and Technology

Urban Affairs

**Departmental Corporations:**

Economic Council of Canada

Medical Research Council

National Museums of Canada

Science Council of Canada

Statistics Canada being precluded from publishing data which might permit identification of individuals, it has been necessary to omit data concerning 360 employees with a payroll of \$296 thousand from the main body of Tables 5 and 6 and include these data in the grand totals only.

Comparaison entre le nombre d'employés et la rémunération ordinaire:

Les utilisateurs ne devront pas tirer de comparaison directe entre le nombre d'employés et la rémunération, les données concernant chacun sont déclarés différemment, donc sur des bases non comparables.

Analyse des données:

Le nombre d'employés de l'administration publique fédérale dans les départements d'État, ministères et corporations de département, totalisa 289,000 à la fin de septembre 1973. Le présent bulletin présente une analyse des 203,000 ou 70.2% des employés dans les régions métropolitaines.

Le nombre d'employés dans les régions métropolitaines augmenta de 12,000 ou 6.3 % par rapport au total à la fin de septembre 1972. Les ministères qui enregistrent les plus fortes variations sont: Main-d'œuvre et Immigration 1,000, cette augmentation résulte principalement de l'augmentation du nombre d'employés travaillant pour le programme d'immigration ainsi que la Commission d'assurance-chômage, la première eut lieu principalement dans les régions métropolitaines de Toronto, Montréal et Ottawa-Hull; Revenu national 900; Secrétariat d'État 700; les Postes 700; Approvisionnements et Services 600. Ceux qui enregistrent des diminutions sont: Défense nationale 2,400 et Affaires des anciens combattants 1,200.

Les régions métropolitaines qui enregistrent le plus grand nombre d'employés furent: Ottawa-Hull 76,800; Montréal 25,700; Toronto 21,400; Vancouver 13,100 employés et Halifax 11,900. Les chiffres comparables pour septembre 1972 sont: Ottawa-Hull 70,300; Montréal 25,400; Toronto 20,000; Vancouver 12,100 et Halifax 11,400.

Le nombre de femmes employées augmenta légèrement durant l'année. La région Ottawa-Hull rend compte de la plus grande concentration de femmes employées avec 40 % et St. John's, Terre-Neuve fut considérée la plus basse avec une proportion de 2 %.

Des vingt-neuf ministères et dix corporations de département compris dans ce bulletin, cinq ministères et quatre corporations de département avaient la totalité de leur employés dans la région d'Ottawa-Hull. Ce sont:

**Ministères:**

Gouverneur général, bureau du Parlement;

Le Sénat

La Chambre des communes

Bibliothèque du Parlement

Conseil privé

Sciences et technologie

Affaires urbaines

**Corporations de département:**

Conseil économique du Canada

Conseil des recherches médicales

Musées nationaux du Canada

Conseil des sciences du Canada

Statistique Canada n'a pas le droit de publier des données que l'on pourrait rapporter à des individus; il a donc fallu omettre des tableaux 5 et 6 les données concernant 360 employés et leur rémunération de 296,000 dollars et les inclure dans le total général seulement.

Historical Analysis:

This publication was initially presented in this form as of March 31, 1961 and as at September 30 thereafter. Total federal government employees, as at September 30, 1973, represented an increase of 87,656 or 43.5% over the total at March 31, 1961. Those employed in metropolitan areas, during the period, increased by 72,384 or 55.4% while the total annual payrolls, in metropolitan areas, increased by 236.5%.

Employment changes in particular metropolitan areas during the period March 31, 1961 to September 30, 1973, have varied. The Ottawa-Hull area, in which there is the greatest concentration of federal government employees, recorded the greatest change with an increase of 30,760 or 66.7%. Following the Ottawa-Hull area in order of the greatest change were: Montreal with 8,237 more employees or a 47.1% increase; Toronto, 6,237 or a 41.2% increase, and Vancouver, 4,585 or a 15.4% increase.

Analyse chronologique:

Ce bulletin a d'abord été publié en anglais le 31 mars 1961; par la suite au 30 septembre. Le nombre total des employés de l'administration publique fédérale au 30 septembre 1973 avait augmenté de 87,656 ou 43.5 % par rapport au total du 31 mars 1961. Le nombre des personnes employées dans les régions métropolitaines au cours de cette période a augmenté de 72,384 ou 55.4 % tandis que la rémunération totale dans les régions métropolitaines a augmenté de 236.5 %.

Il y a eu de nombreuses variations de l'emploi dans certaines régions métropolitaines au cours de la période s'échelonnant entre le 31 mars 1961 et le 30 septembre 1973. La région Ottawa-Hull qui rend compte de la plus grande concentration de fonctionnaires fédéraux, a enregistré la plus grande variation avec une augmentation de 30,760 ou 66.7 %, suivie par Montréal qui a connu une augmentation de 8,237 employés ou 47.1 %, Toronto avec une augmentation de 6,237 ou 41.2 % et Vancouver, avec une augmentation de 4,585 ou 15.4 %.

APPENDIX B. Glossary of Principal Terms Used

1. Metropolitan Areas are the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. Executive Category is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions.
3. Scientific and Professional Category is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions, and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. Some fields included within this occupational category are; auditing, biological sciences, dentistry, economics, sociology and statistics, engineering and land survey.
4. Administrative and Foreign Service Category is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries, and the requirements of internal management in the Public Service of Canada.
5. Technical Category is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, and the preparation, inspection and measurement of biological, chemical, and physical substances and materials, and the design, construction, inspection, operation and maintenance of complex equipment, systems and process, and the performance of similar technical duties.
6. Administrative Support Category is composed of occupational groups engaged in the preparation, transcribing, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations.
7. Operational Category is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles, and in the provision of postal, protective, correctional, personal or domestic services.
8. Casuals and Others Category:
  - (a) Casuals are:
    - (i) Individuals employed on a casual basis or for a temporary period not exceeding six months
    - (ii) Individuals employed for a specified term of more than six months.
  - (b) Others are:  
Regular employees of a department or a departmental corporation for whom no occupational breakdown is available to our main source of information, Personnel Applications Centre, Department of Supply and Services.
9. Regular Payroll is the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.

APPENDICE B. Glossaire des principaux termes utilisés

1. Les régions métropolitaines sont celles qui ont été établies par la Division du recensement de Statistique Canada. Elles comprennent les banlieues ou des territoires à population dense situés hors des limites des grandes villes du Canada mais qui leurs sont contigus.
2. La catégorie de la direction: se compose des groupes d'occupation qui élaborent les politiques administratives, dirigent les programmes administratifs et remplissent des fonctions connexes exigeant des aptitudes supérieures pour l'utilisation des ressources ou l'institution ou la modification de fonctions administratives.
3. La catégorie scientifique et professionnelle: se compose des groupes d'occupation qui appliquent de vastes connaissances acquises à l'université dans les domaines spécifiés dans les définitions du groupe, et des groupes de professions dont l'exercice au Canada est généralement autorisé et réglementé par des organismes légalement constitués. Au nombre des catégories d'occupation nous retrouvons la vérification, les sciences biologiques, l'art dentaire, l'économique, la sociologie et la statistique, le génie et l'arpentage.
4. La catégorie administrative et du service extérieur: se compose des groupes d'occupation qui préparent, exécutent, dirigent et surveillent des programmes à l'intention du public ou intéressant les relations politiques et économiques du Canada avec les autres pays, et répondent aux besoins de la gestion interne dans la fonction publique du Canada.
5. La catégorie technique: se compose des groupes d'occupation qui effectuent des analyses, expériences et enquêtes dans les sciences naturelles, physiques et sociales, ainsi que la préparation, l'inspection, et la mesure des substances et des matières biologiques chimiques et physiques et la création, la construction, l'inspection, le fonctionnement et l'entretien d'appareils, de systèmes et de mécanismes complexes et l'exécution de tâches techniques similaires.
6. La catégorie du soutien administratif: se compose de groupes d'occupation chargés de préparer, transcrire, transmettre, organiser et tenir des documents, des rapports et des communications au moyen de procédés manuels, ou par l'installation de diverses machines et appareils, ou d'appliquer formellement les règles et règlements.
7. La catégorie exploitation: se compose des groupes d'occupation qui exercent un métier ou exécutent un travail non spécialisé ayant rapport aux travaux de fabrication, d'entretien et de réparation qu'exigent le fonctionnement de machines, d'appareils et de véhicules, ainsi que les services postaux, de protection, correctionnels, personnels ou domestiques.
8. La catégories des employés temporaires et autres:
  - (a) les temporaires sont:
    - (i) Des personnes employées à titre temporaire ou pour une période ne dépassant pas six mois
    - (ii) Des personnes employées pour une période déterminée de plus de six mois.
  - (b) les autres sont:  
Des employés permanents d'un ministère ou d'une corporation de département pour lesquels notre principale source d'information, donc le Centre d'enregistrement du personnel n'a pas réussi à obtenir les détails par groupes d'occupation.
9. Rémunération ordinaire: salaires et traitements de base versées à des employés au cours d'une période déterminée, non compris le paiement d'heures supplémentaires, les rappels et les paiement spéciaux.

SYMBOLS

The following standard symbols are used in Statistics Canada publications:

.. figures not available.

... figures not appropriate or not applicable.

- nil or zero.

-- amount too small to be expressed.

P preliminary figures.

R revised figures.

X confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

.. nombres indisponibles.

... n'ayant pas lieu de figurer.

- néant ou zéro.

-- nombres infimes.

P nombres provisoires.

R nombres rectifiés.

X confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

## INTRODUCTION

This publication presents statistics on employment and payroll, with respect to Government of Canada employees in metropolitan areas, as of September 1974. Terms used in this publication are defined in the Glossary in Appendix B, page 31.

### Composition of the Metropolitan Areas

The twenty-two metropolitan areas covered by this publication are those so defined for purposes of the 1971 Census of Population. A list of the metropolitan areas and their components is provided in Appendix A, page 28.

### Extent of Coverage

The contents relate to employees of Ministries of State, departments and departmental corporations (as designated in Schedules A and B respectively of the Financial Administration Act). Excluded therefore, are statistics with respect to employees of agency corporations, proprietary corporations and other agencies and corporations. Organization units included as department corporations are:

Agricultural Stabilization Board  
Atomic Energy Control Board  
Economic Council of Canada  
Fisheries Prices Support Board  
Medical Research Council  
National Museums of Canada  
National Research Council  
Science Council of Canada  
Unemployment Insurance Commission  
Veterans' Land Administration

Included are both the civilian and uniformed personnel of the Royal Canadian Mounted Police. Excluded in addition to employees of agency corporations, proprietary corporations and other agencies and corporations are:

Members of the Canadian Forces  
Employees of Revenue Post Offices  
Governor General and Lieutenant-Governors  
The Prime Minister  
Speakers of the Senate and House of Commons  
Deputy Speaker of the House of Commons  
Ministers of the Crown  
Parliamentary Secretaries  
Members of Parliament and Senators  
Members of boards and commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

Regular payroll excludes overtime and retroactive salary increase payments.

Le présent bulletin contient des statistiques sur l'emploi et la rémunération des employés de l'administration publique fédérale dans les régions métropolitaines, au 30 septembre 1974. On trouvera un glossaire des principaux termes utilisés dans l'appendice B, à la page 31.

### Composition des régions métropolitaines

Les 22 régions métropolitaines qui font l'objet de cette publication ont été définis à l'occasion du recensement de la population de 1971. Une liste des régions métropolitaines et de leur territoire apparaît à l'appendice A, page 28.

### L'univers

Cette publication comprend la statistique sur les employés des départements d'État, des ministères et des corporations de département (tels qu'ils apparaissent aux annexes A et B de la Loi sur l'administration financière). Par conséquent, la statistique des corporations de mandataire, des corporations de propriétaire et des autres organismes et corporations est exclue. Les organismes considérés comme corporations de département sont:

Office de stabilisation des prix agricoles  
Commission de contrôle de l'énergie atomique  
Conseil économique du Canada  
Office de soutien des prix des produits de la pêche  
Conseil des recherches médicales  
Musées nationaux du Canada  
Conseil national de recherches  
Conseil des sciences du Canada  
Commission d'assurance-chômage  
Office de l'établissement agricole des anciens combattants

Sont inclus également les agents et le personnel civil de la Gendarmerie royale du Canada. En plus des employés des corporations de mandataire et autres organismes et corporations, sont exclus:

Les membres des Forces canadiennes  
Les employés des bureaux de postes à commission  
Le gouverneur général et les lieutenants gouverneurs  
Le premier ministre  
Le président du Sénat et l'orateur de la Chambre des communes  
L'orateur suppléant de la Chambre des communes  
Les ministres de la Couronne  
Les secrétaires parlementaires  
Les députés et les sénateurs  
Les membres des comités, des commissions et d'autres organismes administratifs dont la rétribution consiste en indemnité journalière ou honoraires forfaitaires.

La rémunération ordinaire ne comprend pas le paiement d'heures supplémentaires et les rappels.

### Comparability Between Number of Employees and Regular Payroll

Users are cautioned against attempting to derive average salary rates by making direct comparison between the number of employees and the payroll, data relating to each are reported on a different basis and are, therefore, not comparable.

### Analysis of Data

Federal government employees, in Ministries of State, departments and departmental corporations, numbered 300,969 at the end of September 1974. This publication provides an analysis of the 213,762 or 74.0% that were employed in metropolitan areas.

The number of employees in the metropolitan areas increased by 10,762 or 5.3% from the total at the end of September 1973. Departments which recorded the largest increases were: Post Office 1,800; Manpower and Immigration 1,700; National Revenue 1,100; Secretary of State 1,100; and Indian Affairs and Northern Development 900. Those which recorded a decrease were Veterans Affairs 1,600 and Treasury Board 100.

Metropolitan areas with the greater number of employees were: Ottawa-Hull, 81,900; Montreal, 27,600; Toronto, 23,800; Vancouver, 12,900; and Halifax, 12,200. Comparable figures for September 1973 are: Ottawa-Hull, 76,900; Montreal, 25,700; Toronto, 21,400; Vancouver, 13,100; and Halifax, 11,900.

The Ottawa-Hull area had the highest proportion of female employees, 40 out of every hundred employees were female while St. John's, Newfoundland, with 21 females out of every hundred, had the lowest proportion.

Of the twenty-nine departments and ten departmental corporations, included in this report, there were five departments and four departmental corporations whose personnel were entirely employed in the Ottawa-Hull area. These are listed below:

#### Departments:

Governor General, Office of the Parliament:  
The Senate  
House of Commons  
Library of Parliament  
Privy Council  
Science and Technology  
Urban Affairs

#### Departmental Corporations:

Economic Council of Canada  
Medical Research Council  
National Museums of Canada  
Science Council of Canada

Statistics Canada being precluded from publishing data which might permit identification of individuals, it has been necessary to omit data concerning 360 employees with a payroll of \$350,000 from the main body of Tables 5 and 6 and include these data in the grand totals only.

### Comparaison entre le nombre d'employés et la rémunération ordinaire

Les utilisateurs ne devront pas tirer de comparaison directe entre le nombre d'employés et la rémunération, les données concernant chacun sont déclarées différemment, donc sur des bases non comparables.

### Analyse des données

Le nombre d'employés de l'administration publique fédérale dans les départements d'État, ministères et corporations de département, totalisa 300,969 à la fin de septembre 1974. Le présent bulletin présente une analyse des 213,762 ou 74.0 % des employés dans les régions métropolitaines.

Le nombre d'employés dans les régions métropolitaines augmente de 10,762 ou 5.3 % par rapport au total à la fin de septembre 1973. Les ministères qui enregistrent les plus fortes variations sont: les Postes 1,800; Main-d'œuvre et Immigration 1,700; Revenu national 1,100; Secrétariat d'État 1,100; Affaires indiennes et Nord canadien 900. Ceux qui enregistrent des diminutions sont: Affaires des anciens combattants 1,600 et Conseil du trésor 100.

Les régions métropolitaines qui enregistrent le plus grand nombre d'employés furent: Ottawa-Hull 81,900; Montréal 27,600; Toronto 23,800; Vancouver 12,900 employés et Halifax 12,200. Les chiffres comparables pour septembre 1973 sont: Ottawa-Hull 76,900; Montréal 25,700; Toronto 21,400; Vancouver 13,100 et Halifax 11,900.

Le nombre de femmes employées augmenta légèrement durant l'année. La région Ottawa-Hull rend compte de la plus grande concentration de femmes employées avec 40 % et St. John's, Terre-Neuve, fut considérée la plus basse avec une proportion de 21 %.

Des vingt-neuf ministères et dix corporations de département compris dans ce bulletin, cinq ministères et quatre corporations de département avaient la totalité de leurs employés dans la région d'Ottawa-Hull. Ce sont:

#### Ministères:

Gouverneur général, bureau du Parlement:

Le Sénat  
La Chambre des communes  
Bibliothèque du Parlement

Conseil privé

Sciences et Technologie

Affaires urbaines

#### Corporations de département:

Conseil économique du Canada  
Conseil des recherches médicales  
Musés nationaux du Canada  
Conseil des sciences du Canada

Statistique Canada n'a pas le droit de publier des données que l'on pourrait rapporter à des individus; il a donc fallu omettre des tableaux 5 et 6 les données concernant 360 employés et leur rémunération de 350,000 dollars et les inclure dans le total général seulement.

#### Historical Analysis

Employment changes in particular metropolitan areas during the period March 31, 1961 to September 30, 1974 have varied. The Ottawa-Hull area in which there is the greatest concentration of federal government employees, recorded the greatest change with an increase of 35,805 or 77.7%. Following the Ottawa-Hull area in order of the greatest change were: Montreal with 10,099 more employees or a 57.8% increase, Toronto 8,546 or 56.5% increase, and Vancouver, 4,369 or 51.2% increase.

In the previous editions of this publication the occupational category "other" included casuals and others. However, the casual employees are now included in the appropriate occupational categories resulting in a decrease in the number of employees appearing in the category "other" for 1974 in comparison with 1973.

#### Analyse chronologique

Il y a eu de nombreuses variations de l'emploi dans certaines régions métropolitaines au cours de la période s'échelonnant entre le 31 mars 1961 et le 30 septembre 1974. La région Ottawa-Hull, qui rend compte de la plus grande concentration de fonctionnaires fédéraux, a enregistré la plus grande variation avec une augmentation de 35,805 ou 77.7 % suivit par Montréal qui a connu une augmentation de 10,099 employés ou 57.8 %, Toronto avec une augmentation de 8,546 employés ou 56.5 % et Vancouver avec une augmentation de 4,369 ou 51.2 %.

Dans les éditions précédentes de cette publication la catégorie d'occupation "autres" incluait les employés temporaires et autres. Dorénavant, les employés temporaires sont inclus dans les catégories d'occupation appropriées. Ce qui explique la diminution du nombre d'employés dans la catégorie d'occupation "autres" pour 1974 en comparaison avec 1973.

## APPENDICES

### APPENDIX A. Census Metropolitan Areas and Components

#### APPENDICE A. Les régions métropolitaines de recensement et leur territoire

##### St. John's Nfld. — T.-N.

St. John's, city — cité  
 Mount Pearl, town — ville  
 Pouch Cove, town — ville

##### Halifax, N.S. — N.-É.

Halifax, city — cité  
 Dartmouth, city — cité

##### Saint John, N.B.

Saint John, city — cité  
 East Riverside — Kinghurst, village  
 Fairvale, village  
 Gondola Point, village  
 Hampton, parish — paroisse  
 Hampton, village  
 Musquash, parish — paroisse  
 Pandenec, village  
 Quispamsis, village  
 Renforth, village  
 Rothesay, parish — paroisse  
 Rothesay, town — ville  
 Simonds, parish — paroisse  
 Westfield, parish — paroisse  
 Westfield, village

##### Chicoutimi — Jonquière, Qué.

Chicoutimi, city — cité  
 Arvida, city — cité  
 Jonquière, city — cité  
 Bagotville, mun.  
 Bagotville, town — ville  
 Chicoutimi-Nord, city — cité  
 Chicoutimi, mun.  
 Kénogami, city — cité  
 Port Alfred, town — ville  
 Rivière du Moulin, town — ville  
 Saguenay, town — ville  
 St. Jean Vianney, village  
 Shipshaw, mun.

##### Québec, Qué.

Québec, city — cité  
 Ancienne-Lorette, town — ville  
 Beauport, city — cité  
 Bélar, town — ville  
 Charlesbourg, city — cité  
 Charlesbourg-Est, mun.  
 Charlesbourg-Ouest, mun.  
 Charney, town — ville  
 Courville, town — ville  
 Giffard, city — cité  
 Lac-Delage, town — ville  
 Lac-St.-Charles, mun.  
 L'Ange-Gardien, mun.  
 Lauzon, city — cité  
 Lévis, city — cité  
 Loretteville, city — cité  
 Montmorency, town — ville  
 Notre-Dame-des-Laurentides, town — ville  
 Orsainville, town — ville  
 St.-Augustin-de-Desmaures, mun.  
 St.-David-l'Auberivière, town — ville  
 St.-Émile, village  
 St.-Félix-du-Cap-Rouge, mun.  
 Ste.-Foy, city — cité  
 St.-Gabriel-de-Valcartier, mun.

##### Québec, Qué. — Concluded — fin

St.-Jean-de-Boischatel, village  
 St.-Michel-Archange, mun.  
 St.-Nicolas, town — ville  
 St.-Romuald-d'Etchemin, city — cité  
 Ste.-Thérèse-de-Lisieux, mun.  
 Shannon, mun.  
 Sillery, city — cité  
 Val-St.-Michel, town — ville  
 Vanier, town — ville  
 Villeneuve, town — ville

##### Montréal, Qué.

Montréal, city — cité  
 Anjou, town — ville  
 Baie-d'Urfé, town — ville  
 Beaconsfield, city — cité  
 Beauharnois, city — cité  
 Beloeil, town — ville  
 Blainville, town — ville  
 Bois-des-Filion, village  
 Boucherville, town — ville  
 Brossard, town — ville

APPENDIX B. Glossary of Principal Terms Used

APPENDICE B. Glossaire des principaux termes utilisés

1. **Metropolitan Areas** are the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. **Executive Category** is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions.
3. **Scientific and Professional Category** is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions, and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. Some fields included within this occupational category are: auditing, biological sciences, dentistry, economics, sociology and statistics, engineering and land survey.
4. **Administrative and Foreign Service Category** is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries, and the requirements of internal management in the Public Service of Canada.
5. **Technical Category** is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, and the preparation, inspection and measurement of biological, chemical, and physical substances and materials, and the design, construction, inspection, operation and maintenance of complex equipment, systems and process, and the performance of similar technical duties.
6. **Administrative Support Category** is composed of occupational groups engaged in the preparation, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations.
7. **Operational Category** is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles, and in the provision of postal, protective, correctional, personal or domestic services.
- Other category is composed of regular employees of a department or a departmental corporation for whom no occupational breakdown is available to our main source of information, Personnel Applications Centre, Department of Supply and Services.
- Regular Payroll is the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.
1. Les régions métropolitaines sont celles qui ont été établies par la Division du recensement de Statistique Canada. Elles comprennent les banlieues ou des territoires à population dense situés hors des limites des grandes villes du Canada mais qui leurs sont contigus.
2. La catégorie de la direction: se compose des groupes d'occupation qui élaborent les politiques administratives, dirigent les programmes administratifs et remplissent des fonctions connexes exigeant des aptitudes supérieures pour l'utilisation des ressources ou l'institution ou la modification de fonctions administratives.
3. La catégorie scientifique et professionnelle: se compose des groupes d'occupation qui appliquent de vastes connaissances acquises à l'université dans les domaines spécifiés dans les définitions du groupe, et des groupes de professions dont l'exercice au Canada est généralement autorisé et réglementé par des organismes légalement constitués. Au nombre des catégories d'occupation nous retrouvons la vérification, les sciences biologiques, l'art dentaire, l'économique, la sociologie et la statistique, le génie et l'arpentage.
4. La catégorie administrative et du service extérieur: se compose des groupes d'occupation qui préparent, exécutent, dirigent et surveillent des programmes à l'intention du public ou intéressant les relations politiques et économiques du Canada avec les autres pays, et répondent aux besoins de la gestion interne dans la fonction publique du Canada.
5. La catégorie technique: se compose des groupes d'occupation qui effectuent des analyses, expériences et enquêtes dans les sciences naturelles, physiques et sociales, ainsi que la préparation, l'inspection, et la mesure des substances et des matières biologiques chimiques et physiques et la création, la construction, l'inspection, le fonctionnement et l'entretien d'appareils, de systèmes et de mécanismes complexes et l'exécution de tâches techniques similaires.
6. La catégorie du soutien administratif: se compose de groupes d'occupation chargés de préparer, transcrire, transmettre, organiser et tenir des documents, des rapports et des communications au moyen de procédés manuels, ou par l'installation de diverses machines et appareils, ou d'appliquer formellement les règles et règlements.
7. La catégorie exploitation: se compose des groupes d'occupation qui exercent un métier ou exécutent un travail non spécialisé ayant rapport aux travaux de fabrication, d'entretien et de réparation qu'exigent le fonctionnement de machines, d'appareils et de véhicules, ainsi que les services postaux, de protection, correctionnels, personnels ou domestiques.
8. La catégorie autres: se compose des employés permanents d'un ministère ou d'une corporation de département pour lesquels notre principale source d'information, donc le Centre d'enregistrement du personnel n'a pas réussi à obtenir les détails par groupes d'occupation.
9. Rémunération ordinaire: salaires et traitements de base versées à des employés au cours d'une période déterminée, non compris le paiement d'heures supplémentaires, les rappels et les paiements spéciaux.

## **SYMBOLS**

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## **SIGNES CONVENTIONNELS**

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

## INTRODUCTION

This publication presents statistical analyses, by metropolitan area, of the number of employees and regular payroll of the general government portion of the federal government statistical universe as defined in the Canadian System of Government Financial Management Statistics (Catalogue 68-506), for September 1975. The Canadian System of Government Financial Management Statistics permits the consolidation and comparison of data, on three levels of government, with a greater degree of consistency than is possible from the information systems maintained by the individual governments.

### Composition of the Metropolitan Areas

The twenty-two metropolitan areas used in this publication are those so defined for purposes of the 1971 Census of Population. A list of the metropolitan areas, together with their components, is provided in the Explanatory Notes, page

### Extent of Coverage

General Government, as defined in the Canadian System of Government Financial Management Statistics, is comprised of:

- (a) Departments of government
- (b) Administrative, regulatory and special funds, normally referred to as special funds
- (c) Government institutions
- (d) Universal pension plans
- (e) Non-trusteed public service pension plans, and
- (f) Working capital funds.

The following special funds:

- (i) Atomic Energy of Canada Limited
- (ii) Bank of Canada
- (iii) Canada Council
- (iv) Canadian Dairy Commission
- (v) Canadian Film Development Corporation
  
- (vi) Defence Construction (1951) Limited
- (vii) National Arts Centre Corporation
- (viii) National Battlefields Commission
- (ix) National Capital Commission, and
- (x) Company of Young Canadians

are included in this issue of the publication for the first time, thereby completing the coverage of all entities in the universe. Consequently, comparisons with metropolitan area data in the previous issues can only be made after deduction of the data in respect to the above-mentioned special funds. These data may be found in Tables 4 and 5, and Appendix.

Statistics with respect to certain employees are excluded from this publication. These include:

- Members of the Canadian Forces
- Governor General and Lieutenant-Governors
- The Prime Minister
- Speakers of the Senate and House of Commons
- Deputy Speaker of the House of Commons
- Ministers of the Crown
- Parliamentary Secretaries
- Members of Parliament and Senators
- Members of Boards or Commissions who are paid on a per diem basis or who receive a nominal honorarium for their services.

### Comparability Between Number of Employees and Regular Payroll

Users of these statistics are advised to avoid making direct comparisons between the number of employees and regular payroll with a view to deriving monthly

La présente publication contient une analyse statistique, par région métropolitaine, du nombre et de la rémunération ordinaire des employés de l'univers statistique de l'administration fédérale qui travaillent dans la partie administration générale au sens que lui donne la publication n° 68-506, Le système canadien des statistiques de la gestion financière des administrations publiques de septembre 1975. Cette publication permet de grouper et de comparer des données relatives aux trois niveaux d'administration publique d'une façon plus uniforme que dans les systèmes d'information de ces différentes administrations.

### Composition des régions métropolitaines

Les 22 régions métropolitaines dont il est question ici sont celles qui ont été définies à l'occasion du recensement de la population de 1971. Une liste des régions métropolitaines et de leur territoire figure dans les notes explicatives, page

### L'univers

L'administration publique générale, selon la publication Le système canadien des statistiques de la gestion financière des administrations publiques, comprend les éléments suivants:

- a) Les ministères
- b) Les fonds administratifs, réglementaires et spéciaux généralement désignés sous le nom de fonds spéciaux
- c) Les institutions appartenant à des administrations publiques,
- d) Les régimes universels de pensions
- e) Les régimes privés de pensions de la Fonction publique
- f) Les fonds de roulement.

Les fonds spéciaux suivants:

- (i) Énergie atomique du Canada Limitée
- (ii) Banque du Canada
- (iii) Conseil des arts du Canada
- (iv) Commission canadienne du lait
- (v) Société de développement de l'industrie cinématographique canadienne
- (vi) Construction de Défense (1951) Limitée
- (vii) Corporation du Centre national des arts
- (viii) Commission des champs de bataille nationaux
- (ix) Commission de la Capitale nationale et
- (x) Compagnie des jeunes Canadiens

figurent ici pour la première fois, et la présente publication englobe ainsi toutes les composantes de cet univers. On ne peut comparer les données du présent numéro avec celles des précédents qu'après avoir déduit des premières les données relatives aux fonds spéciaux susmentionnés. Ces données se trouvent dans les tableaux 4 et 5 et dans l'annexe.

La statistique relative à certains employés est exclue de la présente publication. Ces employés comprennent:

- Les membres des Forces canadiennes
- Le gouverneur général et les lieutenants-gouverneurs
- Le premier ministre
- Le président du Sénat et l'orateur de la Chambre des communes
- L'orateur suppléant de la Chambre des communes
- Les ministres de la Couronne
- Les secrétaires parlementaires
- Les députés et les sénateurs
- Les membres des comités, des commissions et d'autres organismes dont la rétribution consiste en indemnités journalières ou honoraires forfaitaires.

### Comparaison entre le nombre d'employés et la rémunération ordinaire

Les utilisateurs sont priés de ne pas établir de comparaisons directes entre le nombre d'employés et la rémunération ordinaire pour en tirer des données sur la rémunération mensuelle

average payroll data. Number of employees indicate the employees on strength on the last day of the last pay period of the month. Regular payroll in some instances is a calculation of salary for the two pay periods ending on the last pay period of the month and, as such, covers part of the previous month, while in other cases it represents the actual salary paid during the month.

#### Analysis of Data

Employees in the general government portion of the federal government statistical universe numbered 327,833 in September 1975. This publication provides analyses of the 224,880 or 68.6% of these employees working in Census Metropolitan Areas.

As indicated above, coverage of certain agencies was introduced in this publication for the first time in 1975. The employees of these particular agencies reported as working in metropolitan areas was 4,335. Metropolitan area increases in departments and agencies previously reported in this publication numbered 6,783. Employees of Company of Young Canadians and Revenue Post Office are all included in non-metropolitan areas, as metropolitan area detail was not available. Departments reporting the largest increases in metropolitan area employment were: Post Office 2,267; Secretary of State 1,102; Solicitor General 868 and Public Works 549. Employees of the National Research Council working in metropolitan areas, and numbering 2,717, are reported under the Ministry of Science and Technology in 1975. Previously, they were recorded with Treasury Board.

Metropolitan areas reflecting the greatest number of general government employees were Ottawa-Hull 89,156; Montreal 28,174; Toronto 24,809; Vancouver 13,620 and Halifax 12,305.

Ottawa-Hull area, with 40.3% had the highest proportion of female employees, while the lowest proportion was reported in St. John's, Newfoundland, with 19.2%, closely followed by Chicoutimi-Jonquière with 19.8%.

Statistics Canada being precluded from publishing data which might permit identification of individuals, it has been necessary to omit data concerning these employees from the main body of Tables 5 and 6. These data are included in the totals of these tables.

For further information, please contact the Federal Government Section (613-995-0669), Public Finance Division, Statistics Canada, Ottawa K1A 0T6.

moyenne. Ces chiffres portent sur les employés faisant partie de l'effectif le dernier jour de la dernière période de paie du mois. Dans certains cas, la rémunération ordinaire représente le traitement de deux périodes de paie dont la deuxième est la dernière du mois et s'applique donc à une partie du mois précédent, alors que dans d'autres cas elle représente le traitement réel versé pendant le mois.

#### Analyse des données

En septembre 1975, il y avait 327,833 employés du domaine statistique de l'administration fédérale qui travaillaient dans l'administration publique générale. La présente publication contient des analyses portant sur 224,880 soit 68.6 %, de ces employés qui travaillent dans les régions métropolitaines de recensement.

Comme il a été indiqué précédemment, certains organismes ont été englobés pour la première fois dans la présente publication en 1975. Le nombre d'employés de ces organismes qui, selon les rapports, travaillaient dans des régions métropolitaines s'élevait à 4,335. Les augmentations dans les régions métropolitaines pour les ministères et les organismes déjà signalés dans la présente publication atteignaient 6,783. Les employés de la Compagnie des jeunes Canadiens et des bureaux de postes à commission sont tous inclus dans les régions autres que les régions métropolitaines puisque nous ne possédions pas de détails sur ces dernières. Les ministères qui ont enregistré les plus fortes augmentations du nombre d'employés dans les régions métropolitaines sont les suivants: Postes, 2,267; Secrétariat d'État, 1,102; Solliciteur général, 868 et Travaux publics, 549. Les employés du Conseil national de recherches, au nombre de 2,717 sont inclus, en 1975, avec ceux du département d'État aux Sciences et Technologie. Auparavant, ils étaient compris avec ceux du Conseil du Trésor.

Les régions métropolitaines qui contiennent le plus grand nombre d'employés sont les suivantes: Ottawa-Hull, 89,156; Montréal, 28,174; Toronto, 24,809; Vancouver, 13,620 et Halifax, 12,305.

La région d'Ottawa-Hull comptait la plus forte proportion de femmes parmi ses employés, soit 40.3 %, tandis que celle de Saint-Jean (Terre-Neuve), avec 19.2 %, enregistrait la plus faible proportion, précédée de la région de Chicoutimi-Jonquière, avec 19.8 %.

Statistique Canada n'ayant pas le droit de publier des données qui pourraient permettre l'identification des personnes, il a donc fallu omettre des tableaux 5 et 6 les données concernant ces employés. Elles sont donc incluses dans les totaux de ces tableaux seulement.

Pour de plus amples renseignements, veuillez vous adresser à la Section de l'administration publique fédérale (613-995-0669), Division des finances publiques, Statistiques Canada, Ottawa K1A 0T6.

Glossary of Principal Terms Used

Glossaire des principaux termes utilisés

1. **Metropolitan Areas** are the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.
2. **Executive Category** is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions.
3. **Scientific and Professional Category** is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions, and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. Some fields included within this occupational category are: auditing, biological sciences, dentistry, economics, sociology and statistics, engineering and land survey.
4. **Administrative and Foreign Service Category** is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries, and the requirements of internal management in the Public Service of Canada.
5. **Technical Category** is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, and the preparation, inspection and measurement of biological, chemical, and physical substances and materials, and the design, construction, inspection, operation and maintenance of complex equipment, systems and process, and the performance of similar technical duties.
6. **Administrative Support Category** is composed of occupational groups engaged in the preparation, transcribing, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations.
7. **Operational Category** is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles, and in the provision of postal, protective, correctional, personal or domestic services.
8. **Other category** is composed of employees of a department or a departmental corporation or administrative, regulatory and special fund for whom no occupational breakdown is available to our sources of information.
9. **Regular Payroll** is the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.
1. **Les régions métropolitaines** sont celles qui ont été établies par la Division du recensement de Statistique Canada. Elles comprennent les banlieues ou des territoires à population dense situés hors des limites des grandes villes du Canada mais qui leurs sont contigus.
2. **La catégorie de la direction:** se compose des groupes d'occupation qui élaborent les politiques administratives, dirigent les programmes administratifs et remplissent des fonctions connexes exigeant des aptitudes supérieures pour l'utilisation des ressources ou l'institution ou la modification de fonctions administratives.
3. **La catégorie scientifique et professionnelle:** se compose des groupes d'occupation qui appliquent de vastes connaissances acquises à l'université dans les domaines spécifiés dans les définitions du groupe, et des groupes de professions dont l'exercice au Canada est généralement autorisé et réglementé par des organismes légalement constitués. Au nombre des catégories d'occupation nous retrouvons la vérification, les sciences biologiques, l'art dentaire, l'économique, la sociologie et la statistique, le génie et l'arpentage.
4. **La catégorie administrative et du service extérieur:** se compose des groupes d'occupation qui préparent, exécutent, dirigent et surveillent des programmes à l'intention du public ou intéressant les relations politiques et économiques du Canada avec les autres pays, et répondent aux besoins de la gestion interne dans la fonction publique du Canada.
5. **La catégorie technique:** se compose des groupes d'occupation qui effectuent des analyses, expériences et enquêtes dans les sciences naturelles, physiques et sociales, ainsi que la préparation, l'inspection, et la mesure des substances et des matières biologiques chimiques et physiques et la création, la construction, l'inspection, le fonctionnement et l'entretien d'appareils, de systèmes et de mécanismes complexes et l'exécution de tâches techniques similaires.
6. **La catégorie du soutien administratif:** se compose de groupes d'occupation chargés de préparer, transcrire, transmettre, organiser et tenir des documents, des rapports et des communications au moyen de procédés manuels, ou par l'installation de diverses machines et appareils, ou d'appliquer formellement les règles et règlements.
7. **La catégorie exploitation:** se compose des groupes d'occupation qui exercent un métier ou exécutent un travail non spécialisé ayant rapport aux travaux de fabrication, d'entretien et de réparation qu'exigent le fonctionnement de machines, d'appareils et de véhicules, ainsi que les services postaux, de protection, correctionnels, personnels ou domestiques.
8. **La catégorie autres:** se compose des employés d'un ministère ou d'une corporation de département ou des fonds administratifs, réglementaires et spécial pour lesquels nos sources d'information, n'ont pas réussi à obtenir les détails par groupes d'occupation.
9. **Rémunération ordinaire:** salaires et traitements de base versées à des employés au cours d'une période déterminée, non compris le paiement d'heures supplémentaires, les rappels et les paiements spéciaux.

## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- ... figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- R revised figures.
- \* confidential to meet secrecy requirements of the Statistics Act.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- ... nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- R nombres rectifiés.
- \* confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

## INTRODUCTION

This publication presents statistical analyses, by metropolitan area, on the number of employees and payroll of the general government portion of the federal government statistical universe as defined in the Canadian System of Government Financial Management Statistics (Catalogue 68-506). This system permits the consolidation and comparison of data, on three levels of government, with a greater degree of consistency than is possible from the information systems maintained by the individual governments.

### Composition of the Metropolitan Areas

The 23 metropolitan areas used in this publication are those so defined for purposes of the 1976 Census of Population, which included for the first time, Oshawa as a new metropolitan area. A list of the metropolitan areas, together with their components, is provided in the Explanatory Notes on page 27.

### Extent of Coverage

General government, as defined in this publication, is composed of departments, departmental corporations and special funds.

Members of the Canadian Armed Forces and their military pay and allowances have been included for the first time in the present statistics, consequently, comparisons with metropolitan area data in the previous issues are not possible.

The following special funds:

(i) Great Lakes Pilotage Authority, Ltd.,

(ii) Race Track Supervision Revolving Fund

are included in this issue of the publication for the first time, thereby completing the coverage of all entities in the universe.

Statistics with respect to the following are excluded from the publication:

Members of boards or commissions who are paid on a per diem basis or who receive a nominal honorarium for their services;

Members of the House of Commons and Senators;

Parliamentary secretaries;

The Prime Minister.

La présente publication contient une analyse statistique, par région métropolitaine, du nombre et de la rénumération ordinaire des employés de l'univers statistique de l'administration fédérale qui travaillent dans la partie administration générale au sens que lui donne la publication n° 68-506F, au catalogue, Le système canadien des statistiques de la gestion financière des administrations publiques. Cette publication permet de grouper et de comparer des données relatives aux trois niveaux d'administration publique d'une façon plus uniforme que dans les systèmes d'information de ces différentes administrations.

### Composition des régions métropolitaines

Les 23 régions métropolitaines dont il est question dans ce bulletin sont celles qui ont été définies à l'occasion du recensement de la population de 1976 qui comptait Oshawa parmi les régions métropolitaines pour la première fois. Vous trouverez une liste des régions métropolitaines et leurs composantes dans les Notes explicatives à la page 27.

### Champ d'observation

Aux fins de cette publication, l'administration publique générale comprend les ministères, les corporations de département et les fonds spéciaux.

Les données sur les membres de Forces armées canadiennes, leur solde et leurs indemnités figurent dans ces statistiques pour la première fois; par conséquent, on ne peut établir de comparaisons avec les données sur les régions métropolitaines des numéros précédents.

Les fonds spéciaux suivants:

(i) Administration de pilotage des Grands lacs, Ltée.,

(ii) Fonds renouvelable de la surveillance des champs de courses

figurent dans cette publication pour la première fois, ce qui complète l'ensemble des entités de l'univers.

La statistique relatives aux personnes suivantes ne figurent pas dans ce bulletin:

Les membres des comités, des commissions et d'autres organismes dont la rétribution consiste en indemnités journalières ou honoraires forfaitaires;

Les membres de la Chambre des communes et du Sénat;

Les secrétaires parlementaires;

Le premier ministre.

### Comparability Between Numbers and Earnings

Users of these statistics are advised to avoid making direct comparisons between the number of employees and regular payroll with a view to deriving monthly average payroll data. Number of employees indicate the employees on strength on the last day of the last pay period of the month. Regular payroll in some instances is a calculation of salary for the two pay periods ending on the last pay period of the month and, as such, covers part of the previous month, while in other cases it represents the actual salary paid during the month.

### Analysis of Data

Employees in the general government portion of the federal government statistical universe numbered 420,245 in September 1976. This publication provides analysis of the 265,023 (63.1%) of these employees working in census metropolitan areas.

Due to the inclusion for the first time of members of the Canadian Armed Forces, employees paid directly from Postal Revenue and special funds employees, comparisons by metropolitan area with previous publications are not possible.

Compared to the month of September 1975, the number of general government employees in September 1976, increased by 5,191 (2.3%).(1) The departments which recorded the largest increases were: Post Office 2,299, this was due mainly to the inclusion for the first time of Postal Revenue employees; Transport 1,178, due mainly to an increase in the Air Transportation Program; Statistics Canada 1,054, due mainly to the hiring of temporary employees for the 1976 quinquennial census of Canada; Finance 733 due mainly to the inclusion for the first time of Anti-Inflation Board employees and special funds increased by 340. These increases were partly offset by decreases in other departments throughout general government.

Metropolitan areas reflecting the greatest number of employees were: Ottawa-Hull 96,645; Montreal 31,438; Toronto 28,670; Halifax 18,525 and Vancouver 14,431.

Statistics Canada being precluded from publishing data which might permit identification of individuals, it has been necessary to omit data concerning these employees from Tables 2 and 3 and the main body of Tables 5 and 6. These data are included in the totals of these tables.

(1) Excluding members of the Canadian Armed Forces.

### Comparabilité entre le nombre d'employés et les gains

Les utilisateurs sont priés de ne pas établir de comparaisons directes entre le nombre d'employés et la rémunération ordinaire pour en tirer des données sur la rémunération mensuelle moyenne. Les nombres d'employés visent les employés faisant partie de l'effectif le dernier jour de la dernière période de paye du mois. Dans certains cas, la rémunération ordinaire représente le traitement de deux périodes de paye dont la deuxième est la dernière du mois et s'applique donc à une partie du mois précédent, alors que dans d'autres cas elle représente le traitement réel versé pendant le mois.

### Analyse des données

En septembre 1976, l'univers statistique de l'administration publique fédérale comptait 420,245 employés dans la catégorie de l'administration générale. Cette publication présente une analyse des 265,023 (63.1 %) d'entre eux qui travaillent dans les régions métropolitaines de recensement.

On ne peut établir de comparaisons par région métropolitaine avec les publications précédentes parce que les membres des Forces armées canadiennes, les employés rémunérés à même le revenu postal et les employés des fonds spéciaux y figurent pour la première fois.

En septembre 1976, le nombre d'employés de l'administration publique générale a progressé de 5,191 (2.3 %)(1) par rapport au mois de septembre 1975. Voici les ministères et organismes qui ont enregistré les progressions les plus importantes: Les Postes 2,299, en raison de l'inclusion des employés des bureaux de poste à commission; les Transports 1,178, à cause surtout de la hausse attribuable au Programme des transports aériens; Statistique Canada 1,054, en raison de l'embauchage d'employés temporaires à l'occasion du recensement quinquennal du Canada de 1976; les Finances 733, à cause de l'inclusion des employés de la Commission de lutte contre l'inflation et les fonds spéciaux ont enregistré une hausse de 340. Les diminutions observées dans d'autres ministères de l'administration publique ont partiellement neutralisé ces hausses.

Les régions métropolitaines qui comptent le plus grand nombre d'employés sont les suivantes: Ottawa-Hull 96,645; Montréal 31,438; Toronto 28,670; Halifax 18,525 et Vancouver 14,431.

Statistique Canada n'a pas le droit de publier des données qui pourraient permettre d'identifier des personnes; il lui a donc fallu omettre des tableaux 2 et 3 et de la majeure partie des tableaux 5 et 6 les données relatives à certains employés. Ces dernières sont toutefois comprises dans les totaux de ces tableaux.

(1) Sans les membres des Forces armées canadiennes.

### Glossary of Principal Terms Used

### Glossaire des principaux termes utilisés

1. Metropolitan Areas are the same as those developed by the Census Division of Statistics Canada. They include the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the larger cities in Canada.

2. Executive category: is composed of occupational groups engaged in the development of government policy, the direction of government programmes and related functions in which there is a requirement for exceptional ability in utilizing resources or in initiating or modifying administrative functions. The Senior Executive occupational group falls into this category.

3. Scientific and professional category: is composed of occupational groups engaged in the application of a comprehensive body of knowledge acquired through university graduation in fields specified in group definitions and of professional groups in which membership in Canada is generally controlled by legally established licensing bodies. The groups included within this occupational category are:

Actuarial  
Agriculture  
Architecture and Town Planning  
Auditing  
Biological Sciences  
Chemistry  
Defence Scientific Service  
Dentistry  
Economics, Sociology and Statistics  
Education  
Engineering and Land Survey  
Forestry  
Historical Research  
Home Economics  
Law  
Library Science  
Mathematics  
Medicine  
Meteorology  
Nursing  
Occupational and Physical Therapy  
Pharmacy  
Physical Sciences  
Psychology  
Scientific Regulation  
Scientific Research  
Social Work  
University Teaching  
Veterinary Science.

4. Administrative and foreign service category: is composed of occupational groups engaged in the planning, execution, conduct and control of programmes serving the public interest, the political and economic relations between Canada and other countries and the requirements of internal management in the Public Service of Canada. The groups included within this occupational category are:

Administrative Services  
Administrative Trainee  
Commerce  
Computer Systems Administration  
Financial Administration  
Foreign Affairs  
Information Services  
Organization and Methods  
Personnel Administration  
Programme Administration  
Purchasing and Supply  
Translation  
Welfare Programmes.

1. Les régions métropolitaines sont celles qui ont été établies par la Division du recensement de Statistique Canada. Elles comprennent les banlieues ou des territoires à population dense situés hors des limites des grandes villes du Canada mais qui leurs sont contigus.

2. La catégorie de la direction: se compose des groupes d'occupation qui élaborent les politiques administratives, dirigent les programmes administratifs et remplissent des fonctions connexes exigeant des aptitudes supérieures pour l'utilisation des ressources ou l'institution ou la modification des fonctions administratives. Le groupe de la haute direction est compris dans cette catégorie.

3. La catégorie scientifique et professionnelle: se compose des groupes d'occupation qui appliquent des vastes connaissances acquises à l'université dans les domaines spécifiés dans les définitions du groupe, et des groupes de professions dont l'exercice au Canada est généralement autorisé et réglementé par des organismes légalement constitués. Les groupes compris dans cette catégorie d'occupation sont:

Actuarial  
Agriculture  
Architecture et urbanisme  
Vérification  
Sciences biologiques  
Chimie  
Service scientifique pour la défense  
Art dentaire  
Économique, sociologie et statistique  
Enseignement  
Génie et arpентage  
Sciences forestières  
Recherche historique  
Sciences domestiques  
Droit  
Bibliothéconomie  
Mathématiques  
Médecine  
Météorologie  
Sciences infirmières  
Ergothérapie et physiothérapie  
Pharmacie  
Sciences physiques  
Psychologie  
Réglementation scientifique  
Recherche scientifique  
Service social  
Enseignement universitaire  
Médecine vétérinaire.

4. La catégorie administrative et du service extérieur: se compose des groupes d'occupation qui préparent, exécutent, dirigent et surveillent des programmes à l'intention du public ou intéressant les relations politiques et économiques du Canada avec les autres pays, et répondent aux besoins de la gestion interne dans la fonction publique du Canada. Les groupes compris dans cette catégorie d'occupation sont:

Services administratifs  
Stagiaires en administration  
Commerce  
Gestion des systèmes d'ordinateurs  
Gestion des finances  
Affaires étrangères  
Services d'information  
Organisation et méthodes  
Gestion du personnel  
Administration des programmes  
Achat et approvisionnement  
Traduction  
Programmes de bien-être social.

Glossary of Principal Terms Used - Concluded

Glossaire des principaux termes utilisés - fin

5. Technical category: is composed of occupational groups engaged in the conduct of analytical, experimental and investigative duties in the natural, physical, and social sciences, the preparation, inspection and measurement of biological, chemical, and physical substances and materials and the design, construction, inspection, operation and maintenance of complex equipment, systems and processes and the performance of similar technical duties. The groups included within this occupational category are:

Aircraft Operations  
Air Traffic Control  
Drafting and Illustration  
Educational Support  
Electronics  
Engineering and Scientific Support  
General Technical  
Photography  
Primary Products Inspection  
Radio Operation  
Ship's Officers  
Social Science Support  
Technical Inspection.

6. Administrative support category: is composed of occupational groups engaged in the preparation, transcribing, transmitting, systematizing and maintenance of records, reports and communications of manual processes, or by operating various machines and equipment, as in the direct application of rules and regulations. The groups included within this occupational category are:

Clerical and Regulatory  
Communications  
Data Processing  
Office Equipment Operation  
Secretarial, Stenographic, Typing  
Telephone Operation.

7. Operational category: is composed of occupational groups engaged in the performance of a craft or of unskilled work in the fabrication, maintenance and repair activities, in the operation of machines, equipment and vehicles and in the provision of postal, protective, correctional, personal or domestic services. The groups included within this occupational category are:

Correctional  
Firefighters  
General Labour and Trades  
General Services  
Heating, Power and Stationary Plant Operation  
Hospital Services  
Lightkeepers  
Postal Operations (CUPW)  
Printing Operations  
Revenue Postal Operations  
Ship Repair  
Ship's Crew  
Postal Operations (LCUC).

8. Other category: are employees of a department or a departmental corporation or special fund for whom no occupational breakdown is available to our sources of information.

9. Regular payroll: the basic wage and salary payments made to employees during a specified period of time, excluding overtime, retroactive salary payments and special payments.

5. La catégorie technique: se compose des groupes d'occupation qui effectuent des analyses, expériences et enquêtes dans les sciences naturelles, physiques et sociales, ainsi que la préparation, l'inspection, et la mesure des substances et des matières biologiques, chimiques et physiques et la création, la construction, l'inspection, le fonctionnement et l'entretien d'appareils, des systèmes et de mécanisme complexes et l'exécution de tâches techniques similaires. Les groupes compris dans cette catégorie d'occupation sont:

Navigation aérienne  
Contrôle du trafic aérien  
Dessin et illustration  
Soutien de l'enseignement  
Électronique  
Soutien technologique et scientifique  
Techniciens divers  
Photographie  
Inspection des produits primaires  
Radiotélégraphie  
Officiers de navire  
Soutien des sciences sociales  
Inspection technique.

6. La catégorie du soutien administratif: se compose des groupes d'occupation chargés de préparer, transcrire, transmettre, organiser et tenir des documents, des rapports et des communications au moyen de procédés manuels, ou par le fonctionnement de diverses machines et appareils, ou d'appliquer formellement les règles et règlements. Les groupes compris dans cette catégorie d'occupation sont:

Commis aux écritures et aux règlements  
Communications  
Traitement mécanique des données  
Mécanographie  
Secrétariat, sténographie, dactylographie  
Téléphonistes.

7. La catégorie exploitation: se compose des groupes d'occupation qui exercent un métier ou exécutent un travail non spécialisé ayant rapport aux travaux de fabrication d'entretien et de réparation qu'exigent le fonctionnement de machines, d'appareils et de véhicules, ainsi que les services postaux, de protection, correctionnels, personnels ou domestiques. Les groupes compris dans cette catégorie d'occupation sont:

Services correctionnels  
Pompiers  
Manoeuvres et hommes de métier  
Services divers  
Chauffage, force motrice et opération de machines fixes  
Services hospitaliers  
Gardiens de phares  
Opérations postales (S.P.C.)  
Services d'imprimerie  
Bureaux de poste à commission  
Réparation des navires  
Équipage de navires  
Opérations postales (U.F.C.).

8. La catégorie autres sont: des employés d'un ministère ou d'une corporation de département ou d'un fond spécial pour lesquels nos sources d'information, n'ont pas réussi à obtenir les détails par groupes d'occupation.

9. Rémunération ordinaire: salaires et traitements de base versées à des employés au cours d'une période déterminée, non compris le paiement d'heures supplémentaires, les rappels et les paiements spéciaux.
